

POLLINATION GARDEN, BEE HOUSES, BRIDGE, AND WALKING PATH

Eagle Scout Project * James Koepke

Project Location * Lazy 5 Regional Park

Project Date * July 9, 2022

Project:

This project occurs in an area designated for a new pollination garden that included planting 42 flowering plants and shrubs, wood plaques to identify all the plants, creating a designated 200 foot walking path, building a small bridge, building three solitary bee houses and a Pollination Garden sign.

Who benefits from this project:

- Aided Washoe County Park service in a new project.
- Helps educate local community on importance of pollination gardens.
- New area of park to be enjoy by the community.
- Helps solitary bee's habitat, due to loss of their natural environment.
- Helps promote pollination.
- Designated walking path and bridge created easier to access area.

A wooden post stands in the center of the frame. At the top of the post is a rectangular wooden plaque with the number '1002' at the top. Below the plaque is a diamond-shaped wooden sign with a decorative pattern of small holes. The post is surrounded by green foliage and trees. In the background, there is a sandy area and a fence.

**THANK YOU
FOR GIVING ME THE
OPPORTUNITY TO HELP IMPROVE
LAZY 5 REGIONAL PARK.**
