2022 YEAR END SUMMARY

Overall in 2022, Washoe County Parks had a total of 9,528 volunteer hours, which is an increase of about 17% over 2021.

The estimated national value of volunteer time is currently \$29.95 per hour according to independentsector.org with the Do Good Institute, equaling a total value of \$285,363.60 in 2022. Another interesting way to look at it is to equate the volunteer time to the equivalent number of full time employees – and in this case, the time is equal to having an additional 4.5 employees.
