

Wildflower Seed Bombs

What You Need:

- Wildflower seeds
- Blender or food processor
- Construction paper
- Scissors
- Strainer
- Molds

Instructions:

- Cut your construction paper into small pieces. Place into a bowl and fill with water. Let soak for 20 minutes.
- Pour construction paper and water into a blender or food processor. Blend until mushy and pour mixture into a strainer.
- Push all of the water out until the paper is crumbly and slightly damp.
- Pour mixture into your molds, filling halfway. Sprinkle seed of choice and then fill the rest of your mold.
- Let dry overnight.
- Plant them in your garden when you're ready!
