Project Information	S	taff Assigned Case No.:			
Project Name: W. 2nd Avenue Highlands Common Open Space Tentative Subdivision Map					
Project Requested is a common open space tentative subdivision map for 48 residential lots on a currently Description: 18.27+/- acre parcel in Sun Valley. A boundary line adjustment will take 1.05+/- acres from the parcel area. Considerations for Grading and Hillside Development are also included as part of the request.					
Project Address: 0 W 2ND AVE WASHOE COUNTY NV 89433					
Project Area (acres or square feet): Parcel is currently 18.27 +/- acres - will be 17.22+/- acres after BLA					
Project Location (with point of re	ference to major cross	streets AND area locator):			
Project is located at the westernmost te	rminus of 2nd Avenue in	Sun Valley. The project is west of Lois A	Allen Elementary school.

Tentative Subdivision Map Application Supplemental Information

(All required information may be separately attached)

1. What is the location (address or distance and direction from nearest intersection)?

South of W. 2nd Avenue between Chocolate Drive and Whittemore Way.

2. What is the subdivision name (proposed name must not duplicate the name of any existing subdivision)?

W. 2nd Avenue Highlands

3. Density and lot design:

a. Acreage of project site	18.27+/- AC (Current Parcel) - 17.22+/- AC after BLA
b. Total number of lots	48 residential lots
c. Dwelling units per acre	2.8+/- du/acre
d. Minimum and maximum area of proposed lots	4,999+/- SF (Min) and 15,058+/- SF (Max)
e. Minimum width of proposed lots	50 feet
f. Average lot size	7,336+/- SF

4. What utility company or organization will provide services to the development:

a. Sewer Service	SVGID
b. Electrical Service	NV Energy
c. Telephone Service	ATT
d. LPG or Natural Gas Service	NV Energy
e. Solid Waste Disposal Service	Waste Management
f. Cable Television Service	Charter Spectrum
g. Water Service	SVGID

- 5. For common open space subdivisions (Article 408), please answer the following:
 - a. Acreage of common open space:

7.56+/- AC - OS Area A (Detention) is 0.51+/- acres and OS Area B (Sloped Area) 7.05+/- acres

b. What development constraints are within the development and how many acres are designated slope, wetlands, faults, springs, and/or ridgelines:

The entire common open space area associated with the project is in steeper slopes and will be preserved.

c. Range of lot sizes (include minimum and maximum lot size):

Residential lots ranging from 4,999+/- SF to 15,058+/- SF

	Setbacks are proposed to follow MDS Standards in WCDC
e.	Justification for setback reduction or increase, if requested:
	No reduction to setbacks is requested.
f.	Identify all proposed non-residential uses:
	No non-residential uses are proposed.
g.	Improvements proposed for the common open space:
	Trail connections disturbed with development will be realigned and connected.
h.	Describe or show on the tentative map any public or private trail systems within common open space of the development:
	Trail connections are shown on the plans for the project.
i.	Describe the connectivity of the proposed trail system with existing trails or open space adjacent to or near the property:
	Trails connect to the Red Hill Park trail system.
j.	If there are ridgelines on the property, how are they protected from development?
	No ridgelines exist on the property.
k.	Will fencing be allowed on lot lines or restricted? If so, how?
	Yes. typical residential redwood fencing will be allowed on side and rear lot lines.
I.	Identify the party responsible for maintenance of the common open space:
	An HOA or LMA will be responsible for common area open space.
ad <u>htt</u>	the project adjacent to public lands or impacted by "Presumed Public Roads" as shown on the opted April 27, 1999 Presumed Public Roads (see Washoe County Engineering website at p://www.washoecounty.us/pubworks/engineering.htm). If so, how is access to those features ovided?
Th	ne property is adjacent to County Park Land and a Public School. No Presumed Public Roads exist in the area of the parcel.
'. Is	the parcel within the Truckee Meadows Service Area?
	Yes 🔲 No

d. Proposed yard setbacks if different from standard:

Is the parcel	within the C	Cooperative Planning Area as defined by the Regional Plan?		
☐ Yes	■ No	If yes, within what city?		
Has an arch were the find		urvey been reviewed and approved by SHPO on the property? If yes, wha		
None of w	hich we are	e aware.		
Indicate the	type and qua	antity of water rights the application has or proposes to have available:		
a. Permit#	1	acre-feet per year		
b. Certifica	te#	acre-feet per year		
c. Surface	Claim #	acre-feet per year		
d. Other#		acre-feet per year		
		(as filed with the State Engineer in the Division of Water Resources of the ervation and Natural Resources):

Street Name Reservation Status

2nd Avenue Highlands, Submitted: 2/14/2022 10:13:36 AM

Lumos & Associates, Inc. Joe Ketron 9222 Prototype Dr. Reno, NV

The following street name(s) have been **Accepted** and reserved into the Washoe County Master Street Directory Reservation table

Jursdiction: WASHOE COUNTY, Parcel Numbers: 085-010-44,085-010-47

Accepted Reservations		
Requested Street Name	Description	Expiration Date
Beanstalk	2nd Avenue Highlands	03/14/2023
Riding Hood	2nd Avenue Highlands	03/14/2023

^{**}Note: Washoe County GIS reserves the right to rescind any reserved street name before recordation, in accordance with public safety concerns.

^{**}Note: A street name reservation is valid for one year after it is ACCEPTED. If the name does not appear on a recorded document within one year of acceptance, then there is no obligation to honor the reservation. Forward this email or send a request to StreetNames@washoecounty.gov for renewal, once reservation expires.

All future street name requests:

- 1. Fill out online **Form**
- 2. Do NOT include USPS suffix types (e.g. AVE, ST, RD, CT, DR, LN, WAY, CIR, PL, TRL, etc.); that comes later.
- 3. No more than 14 letters, 15 if there is an "i" in the name (spaces count as a character).
- 4. Special characters are NOT allowed (', ", ', ~, /, \, -, *, #, &, @, %, +).
- 5. Abbreviations for MOUNT (MT) and SAINT (ST) are NOT allowed.

For the purposes of Emergency Management, street names will reject if the street name already exists, appears similar, or sounds phonetically similar to an existing street name.

To check proposed street names against already existing or reserved in the Washoe County Master Street Directory click:

- 1. Existing streets
- 2. Reserved streets

	Proof of Property Tax Payments
	Title Report

Property Location

The subject property is located south of West 2nd Avenue, between Whittemore Way, and Chocolate Drive. The subject parcel is currently 18.27+/- acres in size. The subject parcel is identified as APN 085-010-44 by the Washoe County Assessor's Office. A Boundary Line Adjustment (BLA) application has been submitted that has requested that a 1.05+/- acre triangular portion of the subject parcel be combined with APN 085-010-47.

An aerial based vicinity map is provided below showing the subject parcel location, the BLA location, and the uses and the general lot patterning of the surrounding properties.

Vicinity Map

Project Request

Requested is a common open space tentative map to create a total of 48 single family residential lots on an existing 18.27+/- acre parcel. A boundary line adjustment application has been submitted to remove 1.05+/- acres from the subject parcel, which will leave 17.22+/- acres in the subject parcel after approval and recordation of the BLA. A common open space development has been proposed to consolidate the development area into the norther portion of the site. The northern portion of the site contains, predominately 0-15% slopes, which are deemed to be "most developable" by the Washoe County Master Plan and Developable Code.

The project development plans propose grading that will cross thresholds that are identified in Article 438 of the Washoe County Development Code. The specific sections of Article 438 that are requested for consideration and approval with this application area are as follows::

110.438.35 (a)(1) – Grading on slopes less than or flatter than 15%

Area - (i)(C) — Grading of an area of more than four (4) acres on a parcel of any size

Volume (ii)(A) – Excavation of five thousand (5,000) cubic yards or more whether the material is intended to be permanently located on the project site or temporarily stored on a site for relocation to another, final site.

110.438.35 (a)(2) – Grading on slopes of 15% or greater (steeper)

Volume (i)(C) – Grading of an area of more than two (2) acres on a parcel of any size

Volume (ii)(A) – Importation of five thousand (1,000) cubic yards or more whether the material is intended to be permanently located on the project site or temporarily stored on a site for relocation to another, final site.

110.438.35(a)(3) – Any driveway or road that traverses any slope of thirty (30) percent or greater (steeper)

110.438.45(c) – Finish grading varying by more than 10-feet from natural slope. There are areas throughout the site where either cuts or fills will exceed this threshold and those areas can be seen on the cut and fill map provided with this application package In Tab C. This standard is typically reviewed under a director's modification, but it is requested that this instance be reviewed along with the Tentative Subdivision Map request by the Planning Commission.

The minimum lot size proposed is 4,999+/- SF and the maximum lot size is 15,058+/- SF. The property is Master Planned Suburban Residential (SR) and zoned Medium Density Suburban (MDS). Only 48 custom home lots are proposed with the project although 51 are allowed, after the Boundary Line Adjustment.

Additional considerations for the review of this project include review relative to the standards containing in Article 408 (Common Open Space Development) and Article 424 (Hillside Development). A site analysis/review is provided in this Narrative with reference to maps within the application. The review sections commence on Page 4 of this narrative.

Project Background

A parcel map was approved that created this parcel. The parcel map was recorded on June 29, 1990, as file no. 1409959 in the Washoe County Recorder's Office and is identified as Parcel Map 2450. This parcel map created the subject parcel 085-010-44. An additional parcel (not associated with this application) was also created that allowed for the siting and construction of the Lois Allen Elementary School directly east of the site.

The property is defined by Washoe County to sit within areas considered to be most suitable per the Sun Valley Development Suitability Map from the Sun Valley Area Plan. This category is reserved for land that falls within the 0% - 15% slope range without any development constraint areas. The only constraint areas on the property are identified to be some moderately sloped land in the center of the property running south to the parcel boundary. A copy of the Sun Valley Development Suitability Map is provided in Tab D with this application.

The site is defined as being part of the Suburban Character Management Area (SCMA) within the Sun Valley Area Plan. This area will contain residential densities of one unit per acre or greater. The SCMA is the designated growth area in Sun Valley.

Existing Site Condition Photos

The 18.27+/- acres is currently vacant with larger lot/rural residential development consisting of 12,000 sf properties, adjacent to it. The properties surrounding the subject property are served by a private water company, the Sun Valley General Improvement District (SVGID) and connects to the Washoe County municipal sewer system. Following are photos of the site that show the land condition and the relatively gentle slope to the land.

Photo of proposed development area of the site, south of W. 2nd Avenue. View to the south along W. 2nd Avenue approximately midblock between Chocolate Drive and Whittemore Way.

Photo of proposed development area of the site, south of W. 2nd Avenue. View to the south along W. 2nd Avenue approximately midblock between Chocolate Drive and Whittemore Way.

Photo from the south property line showing some of the steeper slopes, existing trail access and some illegal dumping that has occurred over time.

Article 408 - Common Open Space Site Analysis Site Analysis/Review

Following are the site analysis requirements identified in Article 408 for a Common Open Space Development:

- (a) Location Map. A general location map providing the context of location and vicinity of the site.
 - A location map is provided on the first page of this narrative and on the cover sheet for the project plans in Tab B.
- (b) Land Use. Current and planned land use on the site and adjacent current, planned and approved, but unbuilt land uses.
 - The property zoning is MDS, which allows for up to 51 lots on the 17.22+/- acre property (after the boundary line adjustment). The total number of residential lots proposed with this project is 48.
- (c) Existing Structures. A description of the location, physical characteristics, condition and proposed use of any existing structures.
 - No Structures exist on the site.
- (d) Existing Vegetation. A description of existing vegetation, including limits of coverage, and major tree sizes and types. In the instance of heavily wooded sites, typical tree sizes, types and limits of tree coverage may be substituted.
 - The existing vegetation on the site consists of natural brush and shrubs. No trees exist on the project site.
- (e) Prevailing Winds. An analysis of prevailing winds.
 - Prevailing winds are from the west.
- (f) Topography. An analysis of slopes on the site using a contour interval of five (5) feet, or at a contour interval appropriate for the site and agreed to by the Director of Community Development.
 - A slope analysis map with the project lotting overlayed is provided with this project plan sheets.
- (g) Soil. An analysis of the soil characteristics of the site using Soil Conservation Service (SCS) information.
 - A preliminary geotechnical report has been provided with this application package.
- (h) Natural Drainageways. Identification of natural drainageways on and adjacent to the site.

No drainageways that are identified as significant hydrologic resources exist on the development area of the site.

(i) Wetlands and Water Bodies. Identification of existing or potential wetlands and water bodies on the site.

There are no wetlands or water bodies located on the project site.

(j) Flood Hazards. Identification of existing and potential flood hazards using Federal Emergency Management Agency (FEMA) information.

The subject property is in unshaded Zone X.

(k) Seismic Hazards. Identification of seismic hazards on or near the site, including location of any Halocene faults.

The preliminary soils report provided for the project does not identify any faulting on the subject parcel.

(I) Avalanche Hazards. An analysis of avalanche and other landslide hazards.

There are no avalanche hazards on the site.

(m) Sensitive Habitat and Migration Routes. An analysis of sensitive habitat areas and migration routes.

Review of the sensitive habitat and migration route maps within the Washoe County Master Plan did not show that any such areas exist on the subject parcel.

(n) Significant Views. A description and analysis of all on and off site significant views.

Due to the existing slopes on the subject parcel, views to the north and west, across Sun Valley exist on the northern portion of the site, where the development area is proposed. The southern portion of the site (area to remain as open space) will offer views to the south across the Truckee Meadows and toward Mt. Rose.

(o) Easements. A description of the type and location of any easements on the site.

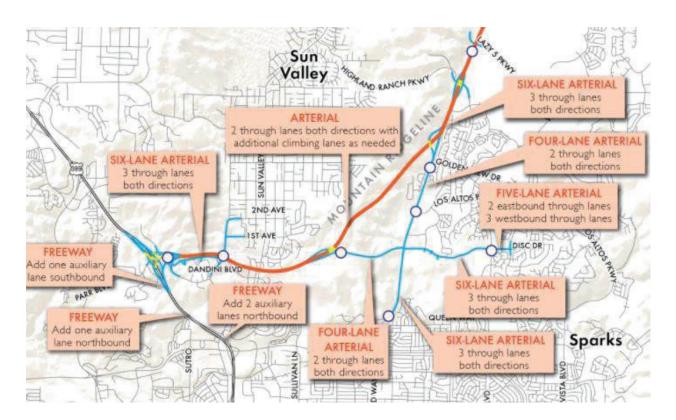

Only Public Utility Easements (PUE's), located along some of the property boundaries, currently exist on the subject property. This is evidenced by Parcel Map #2450, Doc # 1409959 as recorded in the Washoe County Recorder's Office (copy provided in Tab D with this application.

(p) Utilities. A description of existing or available utilities, and an analysis of appropriate locations for water, power, sanitary sewer and storm water sewer facilities.

Utilities to serve the project exist adjacent to the project development site.

(q) Appropriate Access Points. An analysis of appropriate access points based upon existing and proposed streets and highways and site opportunities and constraints.

Access to the project will be served off W. 2nd Avenue and Whittemore Way. RTC has plans to provide connector roads to link to U.S. 395 and Pyramid Highway that is conceptually designed to include a connector linkage from Dandini Boulevard to W. 1st Avenue and W. 2nd Avenue in Sun Valley at or near Chocolate Drive. The image below is from an RTC Preferred Alternatives Map available on RTC's website.

(r) Other Information. All other information deemed appropriate and necessary by the Director of Community Development.

No other information was identified prior to application submittal.

Article 424 - Hillside Development Site Analysis/Review

Following are the site analysis requirements identified in Article 424 for a Hillside Development

- (a) Site Analysis.
 - (1) Major topographic conditions including ridgelines, ravines, canyons and knolls;

There are no ridgelines, ravines, canyons or knolls on the subject property or development area.

(2) Preliminary geological conditions including major rock outcroppings, slide areas and areas underlain with faults that have been active during the Halocene epoch of geological time;

A geotechnical report is provided with this application and no Halocene faults existing on or near the site. Additionally, there are no major rock outcroppings or slide areas on the site,

(3) Preliminary soil conditions including soil type, expansiveness, slumping, erodibility and permeability;

A geotechnical report is provided with this application. Please refer to Tab C.

(4) Significant surface hydrological conditions including natural drainage courses, perennial streams, floodplains, wetlands and ponding areas;

A drainageway is identified on the southern portion of the property and will be within the 7.05+/- acre natural area (Open Space B) shown on the site plan. It should be noted that this drainageway is not shown on Map 110.418.05.1 (Significant Hydrologic Resources).

(5) The location and types of significant vegetation including known rare and endangered plant species and general plant communities;

No known rare or endangered plan species were identified through the initial project design and site review work.

(6) Habitat areas for rare or endangered animal species;

Review of the sensitive habitat and migration route maps within the Washoe County Master Plan did not show that any such areas exist on the subject parcel.

(7) Preliminary viewshed analysis including cross sections of views to and from the development site from all major roadways within one (1) mile of the project site, and from major focal points on the project site;

Viewshed Aerial Map. 1 mile radius shown from center of development site of subject project.

View Toward Site 1 – Site not visible.

View Toward Site 2 – Site very limited on visibility.

View Toward Site 3 – Site not visible.

View Toward Site 4 - Site not visible.

(8) How the development responds to the unique conditions of the hillside; and

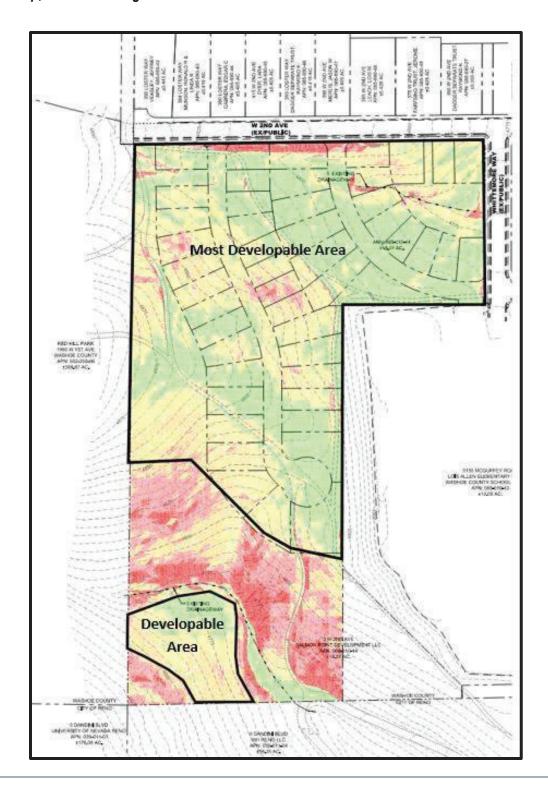

The proposed project locates the development area in the most suitable portion of the site, leaving the steeper slopes at the southern end of the property in natural area (Open Space B).

- (9) A slope analysis, submitted on a topographic map with contour intervals of at least five (5) feet for planning purposes. This analysis shall indicate the location and amount of land included within the following slope categories, tabulated in acres:
 - (i) 0 15 percent;
 - (ii) 15 20 percent;
 - (iii) 20 25 percent;
 - (iv) 25 30 percent; and
 - (v) Greater than 30 percent.

A slope analysis map using these slope ranges is provided in Tab B.

(b) Developable Area Map. A developable area map, prepared pursuant to Section 110.424.20(b).

The most suitable areas for development contain the northern 2/3 of the property and a small area at the southern end of the property. Please see the annotated slope analysis map, below showing the areas that would be considered to be most suitable.

(c) Constraint and Mitigation Analysis. A detailed analysis of how the identified constraints will be mitigated and incorporated into the project's design.

The development plan is considerate to the steep slopes by not proposing development within those areas.

- (d) Washoe County Master Plan Amendment. All applicants proposing a hillside development requiring a Washoe County Master Plan amendment shall enter into a development agreement with Washoe County pursuant to Article 814, Development Agreements. Supplemental to all other requirements, development agreements for hillside development shall contain the following:
 - (1) Agreement by the applicant to seek a Washoe County Master Plan amendment;
 - (2) Agreement by Washoe County to process a Washoe County Master Plan amendment request pursuant to the requirements listed in Article 820, Amendment of Master Plan;
 - (3) Site analysis as required under Section 110.424.15(a);
 - (4) Developable area analysis as required under Section 110.424.20; and
 - (5) Calculation and location of density being proposed.

Consideration d. is not applicable as the project request does not include a Master Plan Amendment.

(e) Detailed Contour Analysis. As determined through a pre-application meeting between the applicant and the Department of Community Development, a topographic map with more or less detailed contour intervals may be required by the Director of Community Development for design purposes.

A Slope Analysis map has been prepared and provided using 5-foot contour. The preliminary grading and drainage plan has also been prepared using this same contour interval.

Project Summary

W. 2nd Avenue Highlands Subdivision is proposed to be a 48-lot single-family subdivision that has been designed as a Common Open Space Development, preserving 7.05+/- acres of the site as open space.

Allowed Density

As reference previously in this Project Narrative, the subject property is zoned MDS existing on the entire 17.22+/- acre property (after BLA). Per code density allowanced, the property can develop with a maximum of 51 lots. The 48 proposed lots meets the density allowance within Code. The overall density that is proposed is 2.77 DU/AC. Article 408 of the Washoe County Development Code allows for a 3.0 lots per acre, thus the proposed density of the project conforms to the code allowances.

Access, Traffic and Private Roadways

The project will be served by a road that will connect with W. 2nd Avenue at its westernmost point. All streets within 2nd Avenue Highlands Subdivision are proposed to be public street.

Headway Transportation has prepared a trip generation letter for the proposed project. This trip generation letter is provided in Tab C of this application. The estimated average daily trips (ADT) from the 48-lot 2nd Avenue Highlands Subdivision is 452 ADT. AM and PM Peak trip ends are 34 and 45, respectively. The peak hour trips associated with the proposed 48 lots does not meet the threshold for any traffic report or study, per Washoe County Development Code 110.

Fencing

"Good neighbor" Redwood fencing that is typical with the residential lots is proposed to be allowed on the side and rear yard areas of the residential lots within the project. This fencing will provide for privacy and security of the rear yard areas of each lot.

Landscaping

The project will provide landscaping in the form of street trees along W. 2nd Avenue, Whittemore Way and along the proposed new public streets within the subdivision. A preliminary landscape plan is provided in Tab B with this application. A total of 86 trees are provided, per the street frontage requirements of Code and a total of 515 shrubs are identified per the preliminary landscape plan

<u>Open Space A</u> (Detention Basin) – The preliminary landscape plan identifies revegetation within this area. A seed mix for the revegetation areas of the site is provided on the preliminary landscape plan sheet.

<u>Open Space B</u> (Natural Area) – The natural landscaping that currently exists in the southern and western portion of the property that is not proposed for lotting will be retained. Due to the location of this natural area and its proposed retention as open space, it is proposed that this 7.05+/- acre area be dedicated to Washoe County with any necessary access or other easement rights, maintained.

Public Facilities and Infrastructure

Schools – The property is zoned for Lois Allen Elementary School. The property is also zoned for Desert Skies School Middle School and Hug High School.

Fire Station– Emergency fire service is to be provided by the Truckee Meadows Fire Protection District. The nearest TMFPD station is Station 45, located at 110 Quartz Lane, which is just under 2 driving miles from the subject parcel.

Water Service – Water service will be provided by the Sun Valley General Improvement District (SVGID). A SVGID capacity study has been prepared (provided in Tab C) prior to construction of the project and will identify the project water lines and any upgrades that may be necessary to the existing system to serve the project.

Sewer Service – Wastewater service will be provided by the Sun Valley General Improvement District (SVGID). A SVGID capacity study has been prepared (provided in Tab C) prepared prior to construction of the project and will identify the project sewer lines and any upgrades that may be necessary to the existing system to serve the project.

A preliminary sewer report is provided as part of this application in Tab C.

Stormwater – A preliminary drainage report for the project is provided in the "Special Package" submittal that has been made with this application. The conclusion of this report is that a detention basin sized to accommodate 7,800 cubic feet of stormwater is necessary.

Development Statistics

Following are development statistics for W. 2nd Avenue Highlands Subdivsion.

Total Parcel Area:	18.27+/- AC
Total Site Area (After BLA)	17.22+/- AC

Maximum Dwelling Units Allowed: (After BLA)

Total Lots Proposed:

Gross Density Proposed:

51 Residential Lots
48 Residential Lots
2.8+/- DU/AC

Areas of Use

Disturbed Area - Residential Lot Area (Street & Detention included):	10.26+/- AC
Open Space A (Detention):	0.51+/- AC
Open Space B (Natural Area):	7.05+/- AC

Lot Sizes

Minimum Lot Size:	4,999+/- SF
Maximum Lot Size:	15,058+/- SF
Average Lot Size:	7,336+/- SF

Setbacks (following MDS standards)

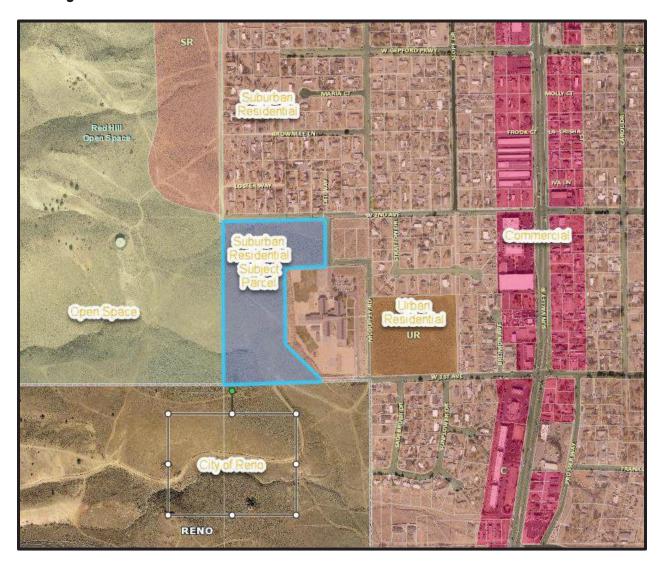

Front Yard	20 feet
Side Yard	8 feet
Rear Yard	20 feet

Master Plan and Zoning Conformance

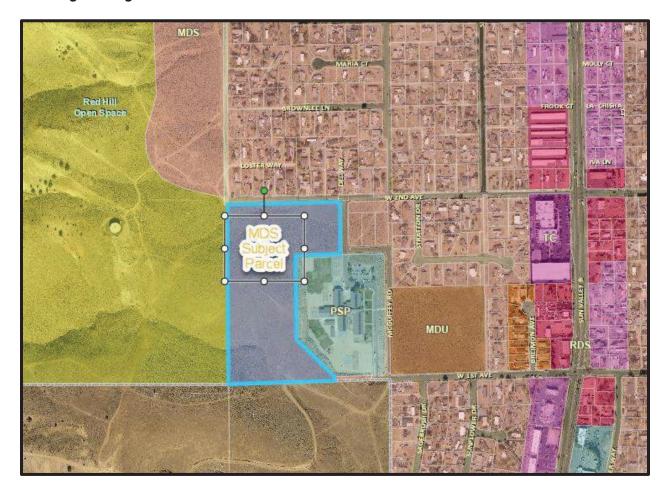

<u>Master Plan</u> -- The subject property is master planned Suburban Residential within the Sun Valley Area Plan. The entire property is further designated to be within the Sun Valley Suburban Character Management Area of this portion of the Washoe County Master Plan. See Planning/Policy Analysis section of the project description for an identification of the master plan goals and policies that are met with this proposed common open space tentative map request.

Zoning - The subject property is zoned Medium Density Suburban (MDS). The proposed lot sizes are allowed with a common open space development and the proposed density is allowed per the property zoning (MDS).

Existing Master Plan Exhibit

Existing Zoning Exhibit

Tentative Map Findings & Considerations

Tentative Map Findings Review

Article 821 of the Washoe County Development Code identifies findings that must be made in order to approve a common open space tentative map application. Following is an identification of each finding and the applicant's response as to how or why this finding is met with this request.

(a) Plan Consistency.

The proposed 2nd Avenue Highlands Subdivision Tentative Map has been designed as a common open space development to preserve some of the steeper portions of the property to the south of the site. This steeper area currently holds trail access that links to the Washoe County owned Red Hill Open Space area. It is proposed that the 7.05+/- acres of Open Space B, shown on the project plans, be dedicated to Washoe County as an extension of the public land/open space area. The subject property is contained within the Sun Valley Area Plan Suburban Character Management Area. The existing zoning designation of MDS is consistent with the Washoe County Master Plan and policies. Please see the SV Area Plan – Planning Policy Analysis, provided in Tab D of this application for a review of the master plan policies that are specific to the area in which the project is located.

(b) Design or Improvement.

Finding b addresses consistency with master plan goals and policies. Please see the SV Area Plan – Planning Policy Analysis, provided in Tab D of this application for a review of the master plan policies that are specific to the area in which the project is located.

(c) Type of Development

The areas of the subject property identified for development are categorized to be predominately within the area "most suitable" for development per the Development Suitability Map in the Sun Valley Area Plan. A project specific slope analysis map, provided in Tab B of this application shows that the steeper areas of the site, holding some areas of 30% and greater, are to be retained as Open Space within Open Space B as identified on the project plan sheets. The northern portion of the site is identified as most suitable for development and is where the proposed lots are defined under a common open space development

(d) Availability of Services.

Roadway and utilities to serve the site are adjacent to the subject property or nearby. Any extensions or upgrades of utilities will be required to be provided by the project developer.

(e) Fish or Wildlife.

The Washoe County Master Plan Conservation Element Habitat and Migration Route Maps show that wildlife habitats are not shown to exist or have limited intrusion anywhere near the subject property.

(f) Public Health.

A single-family residential home subdivision does not present any anticipated public health problems. The provision of community water and sewer to the site will present a positive by not necessitating well water or septic tanks and leech filed systems that can add to nitrates in the groundwater supply.

(g) Easements

Only Public Utility Easements (PUE's) along some of the property boundaries currently exist on the subject property. This is evidenced by Parcel Map #2450, Doc # 1409959 as recorded in the Washoe County Recorder's Office (copy provided in Tab D with this application.

(h) Access

The project will be served by a road that will connect with W. 2nd Avenue at its westernmost point. All streets within 2nd Avenue Highlands Subdivision are proposed to be public streets.

(i) Dedications

The 2nd Avenue Highland Subdivision is proposed to contain public streets that will be constructed to County standards. These streets will be dedicated to Washoe County after acceptance of construction. Additionally, it is proposed that Open Space B, the natural area of the site be dedicated to Washoe County for inclusion with the County owned Red Hill Open Space area that is directly adjacent to the west.

(j) Energy

The orientation of most of the homes will provide opportunities for solar access.

[File Doc: L:\LAProj\10511.001 - W 2nd Avenue Highlands TM & SUP\Civil\Sewer\10511.001 Preliminary Sewer Report.docx] February 22, 2022

I. INTRODUCTION & PROJECT LOCATION

The W 2nd Avenue Highlands project (project) is located within Washoe County limits along W 2nd Avenue within two miles of US395. Refer to **Figure 1** for the Project Vicinity Map. The site is located within Section 19, T20N, R20E, of Washoe County, Nevada, including a total project property area of 18.27 acres within Assessor's Parcel Number (APN) 085-010-44. The project property is zoned medium density suburban (MDS) and is bound by a residential development to the north, also zoned as MDS, Washoe County's Red Hill Park to the west, undeveloped private land to the south currently zoned as mixed use suburban, and Lois Allen Elementary School to the east. The proposed project will consist of 48 single-family residential units. The site is currently undeveloped and covered with natural vegetation with several unauthorized dirt roads on the property.

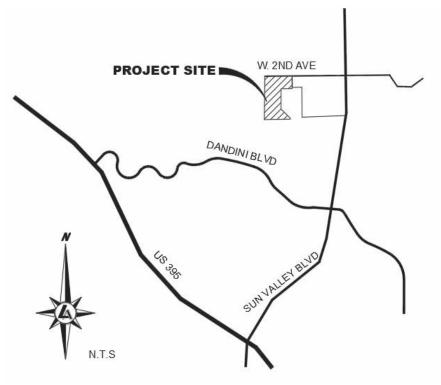

Figure 1: Project Vicinity Map

II. EXISTING SANITARY SEWER FACILITIES

Existing sanitary sewer facilities that will serve W 2nd Avenue Highlands are owned and maintained by the Sun Valley General Improvement District (SVGID). In W 2nd Avenue there is an 8" main that runs parallel to the northern boundary line of W 2nd Avenue Highlands. The sewer main is gravity fed into the SVGID 18" interceptor at SVGID Flow Meter Station #1 at Prosser Drive that flows to Sparks Boulevard and Baring Way. The 18" interceptor ultimately flows to the Truckee Meadows Water Reclamation Facility (TMWRF), operated by the City of Sparks Public Works Department, Environmental Engineering section. Paul J. Winkelman in the *Salmon Point Development Preliminary Water and Wastewater Capacity Study*, dated December 23, 2021 [1], has analyzed the off-site sewer system for this report.

III. DESIGN CRITERIA

The preliminary on-site and off-site sewer system designs are based on the *Washoe County Community Services Department: Engineering Design Standards Section 2 - Gravity Sewer Collection Design Standards,* March 2016 (Design Manual) [2].

A. Sanitary Sewer Generation Factors

- □ Average Residential Flow: 270 gallons per unit per day (gpd/unit)
- □ Peak Flow Factor: 3

B. Gravity Sanitary Sewer System

Gravity Pipelines

- Pipe sizing: Based on peak flow
- □ Minimum main diameter: 8 inches
- Minimum depth of cover for mains: 4 feet from top of pipe to bottom of asphalt
- Minimum velocity: 2.5 feet per second (fps) when flowing half full or as approved by CSD
- ☐ Maximum velocity: 10 fps
- ☐ Manning's roughness coefficient "n": 0.012
- □ Pipe material: PVC plastic pipe, SDR 35, in accordance with ASTM D3034
- ☐ Maximum depth of flow (depth/diameter: d/D): 0.8

Manholes

- □ Placed at all junction points, changes in horizontal and/or vertical alignment, changes in pipe size and at the end of public lines
- Maximum spacing of 400 feet (ft.)

IV. PROPOSED SANITARY SEWER FACILITIES

The W 2nd Avenue Highlands development proposed sanitary sewer system will service 48 lots in the Sun Valley General Improvement District (SVGID). The proposed system will require two tie-ins to the existing sewer system in W 2nd Avenue.

A. Gravity System

The W 2nd Avenue Highlands sanitary sewer system will utilize approximately 2,555 LF of on-site, 8" SDR 35 PVC gravity sanitary sewer mains to convey wastewater to the 8" main in W 2nd Avenue. Refer to **Figure 3** for the preliminary lot layout and gravity sanitary sewer flow directions.

Using Washoe County design standards, the proposed gravity system serving 48 single-family homes at an average flow of 270 gallons per unit per day (gpd/unit) with a peaking factor of 3 will produce 38,880 gallons per day (gpd) of wastewater.

Using a minimum pipe size of 8" SDR 35 PVC and Manning's roughness coefficient ("n") of 0.012, the minimum slope required to achieve the 2.5 fps minimum velocity stipulated by the *Design Manual* is 0.44% when flowing half-full. In this situation, the capacity is 277,916 gpd. When flowing 80% full at 0.44% slope the capacity is 536,443 gpd. Based on these calculations, on-site 8" gravity sanitary sewer mains will be sufficient to service the project in all areas, leaving 497,563 gpd of excess capacity at minimum slope. Shaw Engineering performed downstream sanitary sewer calculations in the *Salmon Point Development Preliminary Water and Waste Water Capacity Study* [1] and confirms that the additional flows from 49 residential units does not require existing sewer main or interceptor improvements.

V. CONCLUSION

The preliminary sanitary sewer system for W 2nd Avenue Highlands will service 48, single-family residences utilizing gravity sanitary sewer mains to convey wastewater to an off-site main in W 2nd Avenue. The existing 8" main will convey the water to the southeast of the project to an existing 18" interceptor in Prosser Drive ultimately leading to Truckee Meadows Water Reclamation Facility (TMWRF). The existing 8" main has sufficient available capacity for the 48 lot development laid out in the *Salmon Point Development Preliminary Water and Wastewater Capacity Study* [1] by Paul J. Winkelman. The proposed gravity sewer infrastructure within public right-of-way will be dedicated to the Sun Valley General Improvement District once complete and operational. The initial design for the gravity sewer infrastructure with 8" mains has an available capacity of 536,443 gallons per day (gpd) for the developments 38,880 gallons per day (gpd) peak flow generation resulting in an excess capacity of 497,563 gpd. The final layout and sizing of sewer infrastructure will be determined during final design.

Trip Generation Letter – 2nd Avenue Highlands

Dear Mr. Anderson,

This letter provides trip generation estimates for the proposed 2nd Avenue Highlands project located in Sun Valley, NV. The proposed project includes 48 single family housing units and is located south of West Second Avenue and west of Whittemore Way. The project location is shown in **Figure 1** and the conceptual site plan is provided in **Attachment A.**

Figure 1. Project Location

Trip Generation

The proposed project consists of a total of 48 single family housing units. Trip generation estimates were calculated based on average trip rates presented in the Institute of Transportation Engineer's (ITE) *Trip Generation Manual, 11th Edition* for the 'Single Family Detached Housing' (ITE Code 210) land use.

Table 1 shows the Daily, AM Peak Hour, and PM Peak Hour trip generation estimates.

Table 1. Estimated Project Trips

Land Use (ITE Code)		Trips ¹								
	Quantity	Daily			AM		PM			
		Total	In	Out	Total	In	Out	Total	In	Out
Single Family Detached Housing (210)	48 Dwelling Units	452	226	226	34	9	25	45	28	17

Notes: 1. Trips are calculated based on the following rates per dwelling unit: Daily - 9.43; AM -0.7 (26% in/74% out); PM -0.94 (63% in/37% out)

Source: Headway Transportation, 2022

The project is expected to generate approximately 452 Daily trips, 34 AM Peak Hour trips, and 45 PM Peak Hour trips.

Conclusion

The peak hour trip generation estimates for 48 single family dwelling units is below the Washoe County requirements for a Traffic Impact Study (80 peak hour trips). Therefore, no further analysis is needed or recommended. The generation of 45 peak hour trips is not expected to create any notable traffic impacts.

The project driveways should be designed and constructed in accordance with Washoe County Standards and have adequate sight triangles.

The project will pay standard Regional Road Impact Fees (RRIF) as mitigation for its minor impacts on the roadway network.

Please do not hesitate to contact us at (775) 322-4300 with any questions

Sincerely,

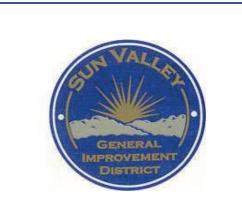

Headway Transportation, LLC

Loren E. Chilson, PE Principal

1.0 Summary

The purpose of this Study is to provide a preliminary assessment of the ability of the Sun Valley General Improvement District (SVGID) to supply potable water and wastewater service to the proposed Salmon Point Development which consists of 49 residential homes (Development). A conceptual layout was provided by the Development (Lumos & Associates, September, 2021). The location of the Development is shown in Figure 1, Page 2. The Development lies within the existing SVGID Service Area.

This preliminary evaluation indicates that SVGID will have the capacity to serve the Development. This Study is a preliminary planning level effort with the primary purpose of providing a reasonable assessment of the ability of SVGID to be able to provide water and wastewater utility service to the Development.

The anticipated preliminary water and wastewater infrastructure improvements (on and offsite) required to serve the Development at the time this Study was prepared are identified in Figure 2, page 5 and Figure 3, page 9. These improvements could change as excess system capacity is distributed on a first come first serve basis. This Study should be updated as the Development Design advances from the conceptual phase.

2.0 Water System Evaluation

2.1 Givens and General Assumptions

All of the existing water system information was obtained from the SVGID Water System Master Plan Update, dated September, 2016, (WMP) that was prepared by Shaw Engineering. As identified in the WMP, the following demands were utilized in this Study;

Average Day Demand, (ADD)	262 Gallons per Day/Customer
	(GPD/Customer)
Maximum Day Demand (MDD)	603 GPD/Customer (PF=2.3)
Peak Hour Demand (PHD)	1,025 GPD/Customer (PF=3.6)
Minimum Month Demand (MDD)	140 GPD/Customer (PF=0.46)

This Study utilized existing SVGID planning and design criteria consistent with the WMP and summarized as follows;

```
Source of Supply (via TMWA Wholesale)

Sullivan + Raleigh Heights = Maximum Day Demand
Raleigh = Minimum Month Demand

Storage

Operational = 17% of Maximum Day Demand
Emergency = 2 Average Day Demand
Fire = As dictated by Fire Authority
```

Shaw Engineering Page 1 of 9

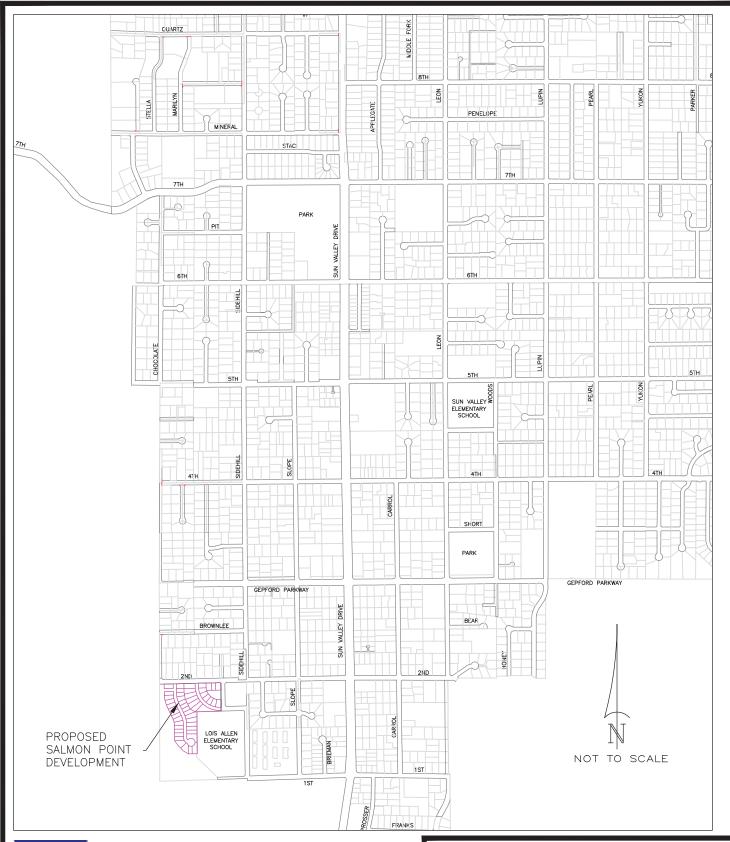

Figure 1
Site Location Map

Pumping (with adequate Zone Storage)

With Largest Pump Offline = Maximum Day Demand

Distribution

- 20 psi residual pressure @ Tank ½ Full at Maximum Day plus Fire
- 30 psi residual pressure @ Tank LWL at Peak Hour
- 40 psi residual pressure @ Tank LWL at Maximum Day

The total anticipated customers, including this Development and other Developments currently being considered are detailed in Appendix A and equal 9,427 customers. Appendix A also includes the customer breakdown by hydraulic pressure zone as well as estimated flows for the various system demand conditions.

Within the Development a fire flow of 1,000 GPM for a 1-hour duration was identified to be required by the Development.

The hydraulic modeling utilized for this Study includes any improvements that have been constructed and are or will be in service as of the date of this Study.

The existing ground surface elevations in the Development vary from approximately <u>4780</u> to <u>4845</u> feet. The proposed Development site is located in the Chocolate Hydraulic Pressure Zone.

Based upon all of the above presented information, the total demands utilized in this Study are summarized in Table 1 below.

TABLE 1 Water System Demands, GPM/MGD								
Customers	Average Day	Maximum Day	Peak Hour	Minimum Month				
9,427 (Existing + Expanded Service Area)	1,715/2.47	3,948/5.68	6,710/9.66	917/1.32				

2.2 Water System Capacity Summary

Table 2 on the following page summarizes the capacity analysis (also see Appendix A).

Shaw Engineering Page 3 of 9

Water Systen	TABLE 2 n Capacity Ana	lysis Summary	
System	Available Capacity	Required Capacity	Excess Capacity Remaining
Source-Max. Day	4,700 GPM	3,948 GPM	1,797 Customers
Source-Emergency Min. Month	1,100 GPM	917 GPM	1,887 Customers
Main Pump Station	3,155 GPM	2,848 GPM	734 Customers
Juniper Terrace Pump Station	600 GPM	549 GPM	122 Customers
West 7th Pump Station	500 GPM	Redundant for Boundary/West 7th	5,143 Customers (min. month)
Southern/Central/Chocolate Storage	6.35 MG	5.374 MG	1,558 Customers
Chimney/Sidehill Storage	1.62 MG	1.72 MG	(162)
Boundary/West 7 th Storage	1.35 MG	0.791 MG	893 Customers
Storage Fire	0.540 MG	0.060 MG	yes
Distribution System Maximum Day + Fire (Development)	≥20 psi	Meets Required Improvements. S Append	ee Figure 2 and
Distribution System Maximum Day (Entire System)	≥40 psi	Meets Required Improvements. S Append	ee Figure 2 and
Distribution System Peak Hour (Entire System)	≥30 psi	Meets Required Improvements. S Append	ee Figure 2 and
Distribution System Minimal Demand	≤100 psi	Meets Required Figure 2 Ap	

The storage deficit that exists in the Chimney/Sidehill Zone is the result of the planned 5 Ridges Project that will be required to add additional storage to this zone. The Development included in this Study is not served by this zone and is not contributing to this deficit.

The water infrastructure required to serve the Development is shown in Figure 2 page 5.

Shaw Engineering Page 4 of 9

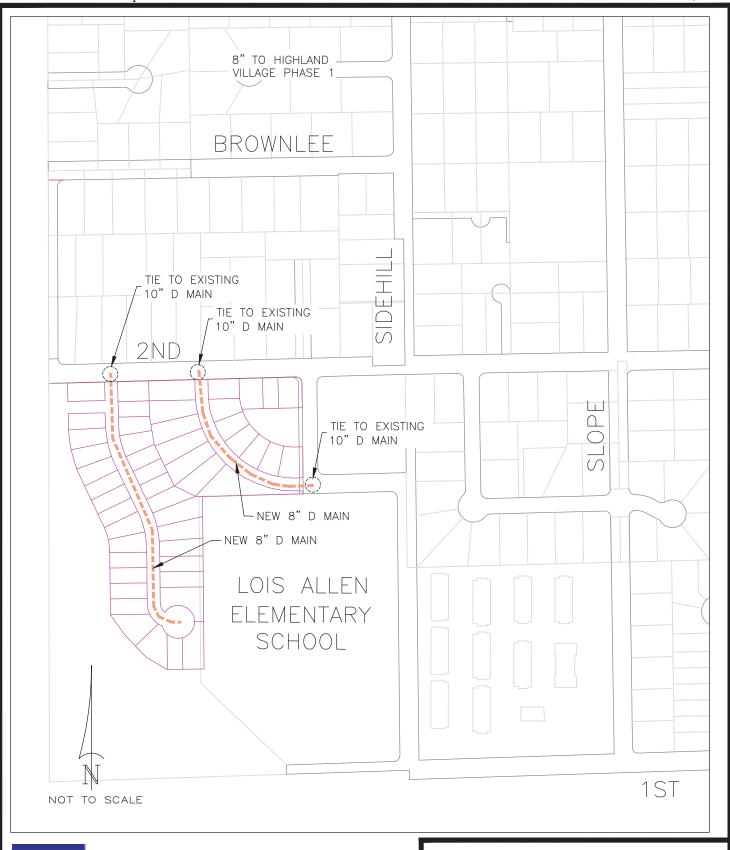

Figure 2
Water System Improvements

3.0 Wastewater Treatment and Conveyance Evaluation

3.1 Givens and General Assumptions

The existing wastewater system information was obtained from the *SVGID Wastewater System Master Plan*, dated August, 2011 that was prepared by Shaw Engineering (WWMP) as well as from any subsequent work related to various developments and new infrastructure that have occurred since the WWMP was completed.

As identified in the WWMP, the following flows were utilized in this Report;

Annual Average Day Flow 186 Gallons per Day/Equivalent

Residential Unit (GPD/ERU)

Peak Month Average Day Flow 201 GPD/ERU

This Study utilized existing SVGID planning and design criteria consistent with the WWMP and is summarized as follows;

Treatment Plant Capacity	Peak Month
8" Peak Hour Factor	3.0
10" and 12" Peak Hour Factors	2.5
15" and above Peak Hour Factor	2.25
Pipe Capacity (d/D)	75%

All system improvements completed since the last WWMP have been incorporated into the hydraulic modeling.

The customer counts by sewer EDU utilized for this Study are summarized in Table 3 page 7.

Shaw Engineering Page 6 of 9

Sub Total	9,5234	285
Total	9,8	08

Footnotes:

- 1. WCDWR = 986 Existing + 1,397 Future (WWMP Section 2.6.2).
- 2. Wastewater capacity studies have been completed. Will serves are issued by SVGID on a first come first serve basis.
- 3. Lies within the existing service area but not included in the original build out numbers utilized in the WWMP.
- 4. Derived from WWMP Table 2.10. Total SVGID service area buildout projected in the 2011 Wastewater Master Plan Update of 6,847 plus 43 additional Ladera (356 to 399 lots) + 201 SV Apts+49 Salmon Point.

Based upon all of the above presented information, the total flows utilized in this Study are summarized below in Table 4.

Wastew	TABLE 4 ater System Flows, GPM/	MGD
EDU's	Average Day Flow	Peak Month Flow
9,808	1,267/1.82	1,369/1.97

3.2 Collection System Capacity

The preliminary points of connection to the existing SVGID collection system based upon the conceptual layout provided and the existing surface topography are located on West 2nd. These preliminary points of connection are subject to change based upon the Development's finish design grades and utility layout.

Shaw Engineering Page 7 of 9

Figure 3, page 9 illustrates the proposed collection mains and the points of connection to the existing system.

The collection systems downstream of the proposed points of connection to the beginning of the Interceptor have the capacity to serve the Development.

3.3 Interceptor Capacity

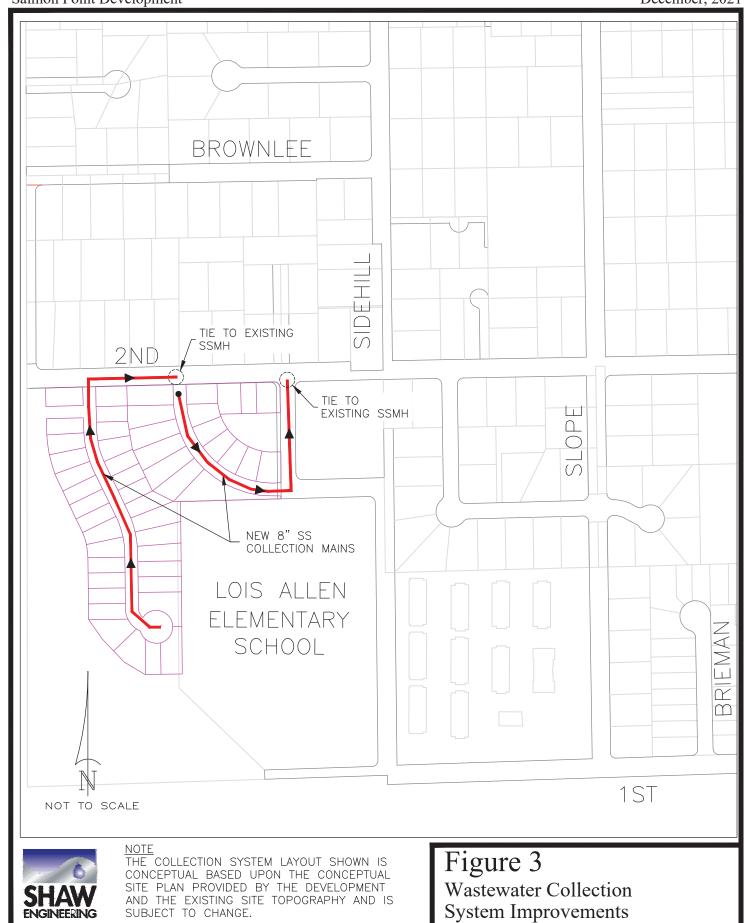

The interceptor begins at SVGID Flow Meter Station #1 located at Prosser Drive and travels all the way to the intersection of Sparks Boulevard and Baring Way where it then discharges into the City of Sparks Spanish Springs Interceptor that then travels to the Truckee Meadows Water Reclamation Facility (TMWRF).

The WWMP identified one area along the interceptor between manholes 18 and 19 (WWMP Section 5.3.1) for the Service Area Buildout that is to be monitored. Field observations recently conducted continue to demonstrate this section is not flow limiting. No interceptor improvements are currently anticipated to be necessary to serve this Development that lies within the existing Service Area.

3.4 Treatment Capacity at TMWRF

SVGID has 2.099 MGD of treatment capacity available at TMWRF (of which 0.479 MGD is dedicated to Washoe County) during a peak month average day flow. This capacity is equivalent to 10,443 ERU's (2.099 MGD/201 GPD/ERU) which exceeds the 9,808 planned ERU's (Table 3). SVGID therefore has the treatment capacity available to serve the Development.

Offsite Improvements

Do Distribution Main Improvements Exceed 500 feet?

Description of Improvements:

Street 2 will contain an 8 inch connected in two location, at Whittemore Wayet and at West 2nd. Sreet 1 will be connected at West 2nd and will be a dead end. All D mains shall be 8 inches. The storage deficit in Chimney/Sidhill are not being excerbated by the Development and are a result of the 5 Ridges Development that is repsonsble for providing additional storage in this Zone.

Footnotes:
(1) Excess capacity shown is of the date of this analysis and is provided on a first come first serve basis. This analysis should be updated if required at the time will serves are issued

(2) The Main Pump Station has dedicated standby power while the other facilities have manual transfer switches. SVGID maintains one mobile generator.

Master Plan Sun Valley Area Plan Planning/Policy Review

For

2nd Avenue Highlands
Subdivision
Tentative Map Application

Vision and Character Management

Land Use

Goal One: The pattern of land use designations in the Sun Valley Area Plan will implement and preserve the community character described in the Character Statement.

Policies

SUN.1.1 The Sun Valley Character Management Plan map (CMP) shall identify the Sun Valley Suburban Character Management Area (SCMA), the Downtown Character Management Area (DCMA) and the Sun Valley Rural Character Management Area (RCMA).

Not applicable – this policy is only description of what areas are covered within the Character Management Plan map, prepared by the County.

- SUN.1.2 To promote "mixed-use" development and redevelopment along Sun Valley Boulevard, the following density bonus is available within the specified boundaries of the Sun Valley Downtown Character Management Area (DCMA).
 - a. All General Commercial and Neighborhood Commercial/Office properties are afforded the opportunity to add a residential component of Low Density Urban, if incorporated into a mixed-use development that meets the DCMA design standards.

Not applicable – this policy applies to properties along Sun Valley Boulevard and are only intended to be applied within the specified boundaries of the Sun Valley Downtown Character Management Area (DCMA).

- SUN.1.3 The following Regulatory Zones are permitted within the Sun Valley Suburban Character Management Area:
 - a. High Density Rural (HDR One unit per 2.5 acres).
 - b. Low Density Suburban (LDS One unit per acre).
 - c. Medium Density Suburban (MDS Three units per acre).
 - d. High Density Suburban (HDS Seven units per acre).
 - e. Medium Density Urban (MDU Twenty-one units per acre).
 - f. Neighborhood Commercial/Office (NC).
 - g. General Commercial (GC).
 - h. Industrial (I).
 - i. Public/Semi-Public Facilities (PSP).
 - j. Parks and Recreation (PR).
 - k. General Rural (GR).
 - I. Open Space (OS).

The proposed 2nd Avenue Highlands Subdivision conforms to the MDS Designation, which is specifically allowed within the Sun Valley Suburban Character Management Area.

- SUN.1.4 The following Regulatory Zones are permitted within the Sun Valley Downtown Character Management Area:
 - a. High Density Suburban (HDS Seven units per acre).
 - b. Low Density Urban (LDU Fourteen units per acre).
 - c. Neighborhood Commercial/Office (NC).
 - d. General Commercial (GC).
 - e. Tourist Commercial (TC).
 - f. Public/Semi-Public Facilities (PSP).
 - g. Parks and Recreation (PR).

Not Applicable - subject property is not in this CMA

- SUN.1.5 The following Regulatory Zones are permitted within the Sun Valley Rural Character Management Area:
 - a. General Rural (GR One unit per 40 acres).
 - b. Public/Semi-Public Facilities (PSP).
 - c. Parks and Recreation (PR).
 - d. Open Space (OS)

Not Applicable – subject property is not in this CMA

SUN.1.6 Staff will review any proposed Master Plan Amendment against the findings, criteria and thresholds identified in the Plan Maintenance section of this plan and make a recommendation to the Planning Commission. At a minimum, the Planning Commission must make each of the findings in order to recommend approval of the amendment to the Board of County Commissioners.

Not Applicable – subject project is not proposing a Master Plan Amendment as part of this development application. is not in this CMA

SUN.1.7 Tentative subdivision maps will not be approved for any development until the impacts of that development have been included in the Sun Valley General Improvement District's water resources facilities plan.

This is understood. SVGID has already prepared a water and sewer capacity study for the project. A copy of the Capacity Study from SVGID is provided in Tab C with this application.

SUN.1.8 The Washoe County Planning Commission will review any application to

expand the Suburban Character Management Area into the Rural Character Management Area against the findings, criteria and thresholds in the Plan Maintenance section of this plan. At a minimum, the Planning Commission must make each of the applicable findings in order to recommend approval of the amendment to the Board of County Commissioners.

Not Applicable – subject project is currently within the Suburban Character Management Area.

SUN.1.9 New or redeveloped commercial and office development will be constructed to front (main entrance) on Sun Valley Boulevard. Buildings that have no other option than to front on a side street will have the same or similar architectural features on the side and rear of building that faces Sun Valley Boulevard.

Not Applicable – subject project is not within the Sun Valley Downtown Character Management Area (DCMA), nor does it front Sun Valley Boulevard.

SUN.1.10 The Washoe County Capital Improvements Program shall identify needed sidewalk and open drainage structure improvements (location, costs and funding) based on a study conducted by the County and the Sun Valley General Improvement District.

This is understood.

SUN.1.11 Washoe County will work to ensure that the long range plans of facilities providers for transportation, water resources, schools and parks reflect the goals and policies of the Sun Valley Area Plan.

This is a county directive policy and not directly applicable to the project. The project is utilizing the existing site zoning (MDS) that has been in existence on the property for many years and would have been included in the buildout scenarios prepared by the County for facility planning.

SUN.1.12 Prior to any approval of proposed land use intensification that will result in existing school facilities exceeding design capacity and which may compromise the Washoe County School District's ability to implement the neighborhood school philosophy for elementary facilities, the school district will identify improvements in their capital improvements plan or school rezoning plan that will enable the District to absorb the additional enrollment. The Washoe County Planning Commission, upon request of the Washoe County School District Board of Trustees, may waive this finding.

Not applicable as the proposed subdivision.

Transportation

Goal Two: The regional and local transportation system in the Sun Valley planning area

will be a safe, efficient, multi-modal system providing significant connections to the greater region, and access to commercial services, public lands and public services available in the community. The system will contribute to the preservation and implementation of the community character as described in the Sun Valley Vision and Character Statement.

Policies

SUN.2.1 Level of service "C" or above is the desired level for all regional roads in the Sun Valley planning area.

This is understood. The project will pay the appropriate fee amount into the Regional Road Impact Fee program as required.

SUN.2.2 The Regional Transportation Commission is urged to fund and construct, at the earliest possible opportunity, the construction of the Sun Valley Arterial with a grade-separated interchange at 7th Avenue. Sun Valley Boulevard shall not be extended north to connect to the Spanish Springs area until the arterial is constructed.

This is understood. This is directed at the Regional Transportation Commission to minimize impacts to the Valley.

SUN.2.3 New construction or redevelopment of commercial properties along Sun Valley Boulevard shall combine vehicle entrances with adjacent properties to provide combined parking and landscaping. If contiguous commercial properties are not developed at the same time, then the vehicle access point to Sun Valley Boulevard will be located close to the property line between adjacent parcels.

Not Applicable. Project is not located along Sun Valley Boulevard.

SUN.2.4 Remaining right-of-way along Sun Valley Boulevard should be utilized to establish an "edge" that includes covered ditches, public transit improvements, bike/pedestrian paths and landscaping.

Not Applicable. Project is not located along Sun Valley Boulevard.

SUN.2.5 The number of traffic signals on Sun Valley Boulevard shall be kept to the minimum number required to provide for safe and efficient traffic flow.

Not Applicable. Project is not located along Sun Valley Boulevard.

SUN.2.6 The Washoe County Department of Public Works shall initiate a study and subsequent action program aimed at improving traffic flow from residential streets onto collectors and arterials, to include consideration of "cut-through" traffic issues.

This is understood. This directed at the Washoe County Department of Public Works to minimize impacts to the Valley.

SUN.2.7 The Nevada Department of Transportation, Regional Transportation Commission and Washoe County shall jointly seek funding to construct sidewalks or paved paths along both sides of Sun Valley Boulevard and main streets such as: 4th, 5th, 6th and 7th Avenues when the safety of pedestrians and children walking to and from schools requires such facilities.

This is understood.

SUN.2.8 Washoe County will include in their Capital Improvements Program the improvement and paving of dirt roads under their jurisdiction.

Not directly applicable. County directive. However, all streets proposed within the project will be paved to county standards.

SUN.2.9 The owners of private roads or driveways are required to adequately sign them to allow for better emergency response.

Not applicable. The project proposes public streets.

SUN.2.10 The Nevada Department of Transportation, Regional Transportation Commission, Sun Valley General Improvement District and Washoe County shall continue to work with the local community to implement traffic/pedestrian safety improvements within Sun Valley.

This is a directive to two public agencies. Not directly applicable.

SUN.2.11 Needed infrastructure improvements to streets and drainage ditches that are required for improved pedestrian safety, transit stops and expanded bus service within the entire valley, shall be included in the Washoe County Capital Improvements Program following the completion of a joint study between the Washoe County Public Works Department and the Regional Transportation Commission.

This is understood. This is directed at these governing bodies to maximize funding efforts to improve pedestrian and transit connectivity in the Valley.

SUN.2.12 Weed abatement along Sun Valley roadways with open ditches shall occur annually.

This is understood.

SUN.2.13 The Regional Transportation Commission is urged to locate a multi-modal transit stop (parking, bike racks, shelters, concessions) on Sun Valley Boulevard.

Not applicable. Project is not on Sun Valley Blvd.

SUN.2.14 The necessary right-of-way and intersection requirements for future roadways identified in the Regional Transportation Commission Transportation Plan will be protected through dedication, setback or other method deemed adequate and appropriate by the Regional Transportation Commission and Washoe County.

RTC has plans for a long range linkage to the Pyramid Highway/U.S. 395 connector. The route of that alignment connecting to W. 2nd Avenue has been conceptually designed but

is not funded. There is plenty of room to accommodate for the proposed development and to make a connection with Chocolate Drive, which is shown on the preferred plan map from RTC that is provided in the project narrative with this project.

SUN.2.15 Washoe County will advocate for the expansion of transit services to and within the Sun Valley planning area pursuant to the Regional Transportation Commissions updated 2030 Plan.

Not applicable. Public agency directive.

SUN.2.16 Improvements listed in the Regional Transportation Commission's Sun Valley Bikeway Plan shall be incorporated into the Washoe County Capital Improvements Program. The bikeway plan will be integrated with the local and regional trails system and provide access to commercial and public services (See Recreational Opportunities Plan map).

This is understood. It is directed to Washoe County staff.

SUN.2.17 The Department of Community Development will provide an annual status report to the Planning Commission regarding the implementation of all transportation related policies in this plan.

This is understood. It is directed at Washoe County staff.

Scenic/Recreational/Cultural Resources

Goal Three: Maintain the natural, scenic and recreational values of the public lands surrounding Sun Valley.

Policies

SUN.3.1 Retain all public lands within and adjacent to the Sun Valley Area Plan boundaries. In the event that public land does become private property, that land would automatically be included in the Sun Valley SCMA.

The project proposes dedicating the natural area associated with the project for incorporation into the Red Hill Open Space Area.

SUN.3.2 The planning of all future roadways, subdivisions or other development will maintain adequate access (vehicular and/or pedestrian) to surrounding public land. Existing and/or needed public access easements will be depicted on all development applications and on the initial right-of-way design for new roadways.

This is understood. It is directed at Washoe County staff

SUN.3.3 Washoe County and Sun Valley residents shall work with the Bureau of Land Management to develop and implement an appropriate plan for the education, management and enforcement of off-highway vehicle (OHV) use on surrounding public lands.

This is understood. It is directed at Washoe County staff

SUN.3.4 Unneeded dirt roads and other disturbed areas on the public lands surrounding Sun Valley should be obliterated and revegetated by the appropriate land management agency.

This is understood. It is directed at Washoe County staff

SUN.3.5 The Washoe County Sheriff's Office shall cooperate with the Bureau of Land Management to increase education and enforcement efforts in order to reduce the incidents of illegal shooting and dumping on public and private lands in Sun Valley.

This is understood. It is directed at Washoe County staff

SUN.3.6 The Washoe County Department of Regional Parks and Open Space will continue to work with all interested organizations and individuals to reduce illegal dumping and other resource damage to Red Hill and take appropriate steps to eliminate off-highway vehicle use on Red Hill.

This is understood. It is directed at Washoe County staff.

Goal Four: Maintain open vistas of the surrounding ridges and hills and minimize the visual impact of hillside development.

Policies

SUN.4.1 Washoe County will require the underground placement of new electrical power transmission lines within the Suburban Character Management Area and the Downtown Character Management Area. In considering whether to grant the required special use permit for transmission lines or in consideration of any conditions including underground placement which may be placed upon an approval, the Planning Commission will utilize the best available information including, but not limited to, the most recent Regional Utility Corridor Report and any Environmental Impact Statement or other study undertaken regarding the proposal. Underground placement of public utilities in general, including electrical power distribution lines, is dictated by Section 110.604.30 of the Washoe County Development Code.

Project will work with Washoe County staff and NV Energy to facilitate the underground placement of distribution level power lines within the project boundaries, as necessary.

SUN.4.2 Hillside development shall disturb the minimum area required for construction and conserve steep slopes in their natural state.

The project proposes development only on the lesser sloped portions of the property and stays out of the steeper sloped areas that are located on the southern end of the site.

SUN.4.3 Significant ridgelines in the Sun Valley planning area are to be protected from future development.

This is understood. It is not intended that any identified significant ridgelines will be affected by this project.

SUN.4.4 Structures shall be located to eliminate or minimize silhouettes against the skyline.

This is understood. Site design will eliminate or minimize silhouettes against the skyline.

SUN.4.5 Disturbed areas shall be finished and fill slopes will not exceed a 3:1 slope; hillside grading will establish an undulating naturalistic appearance by creating varying curvilinear contours.

This is understood. See grading plan included with this application for specifics

SUN.4.6

Soils disturbed through the development process shall be revegetated no later than the next spring and, during the winter, shall be treated to prevent the blowing of soil from the site by wind or the movement of soil by precipitation. Drought tolerant/fire resistant plant species should be used where appropriate (refer to the "Recommended Plant List" in Appendix A).

This is understood.

Goal Five: The Sun Valley planning area will contain a system of parks and trails that provides the community and the region with a broad range of recreational opportunities; provides connections between major developments, recreational facilities, the regional trail system, public lands and schools; and contributes to the enhancement and implementation of the community character.

Policies

SUN.5.1

Updates to the Parks District Master Plan for the Sun Valley planning area (District 2D) will look to Goal Five for direction. The Parks District 2D Master Plan will seek to enhance and implement the community character.

This is understood. It is directed at Washoe County staff

SUN.5.2

The Washoe County Department of Regional Parks and Open Space shall support and schedule the construction of a multi-purpose trail system within the valley (see Recreational Opportunities Plan map). The ultimate goal is the connection of existing and new trails required to complete a Sun Valley Rim Trail.

This is understood. It is directed at Washoe County staff

SUN.5.3 New trails will be designed to accommodate equestrian, pedestrian and mountain bike traffic, unless technical or severe economic hardships warrant consideration of a more limited use.

The natural area, included as part of the overall open space in the project will include perpetuation of the trails that exist as ties to the Red Hill Open Space area.

SUN.5.4 Parking will be provided at all trailheads unless technical or safety issues prevent the construction of parking facilities.

This is understood.

SUN.5.5 Washoe County will work collaboratively with the Cities of Sparks and Reno to determine appropriate trail alignments and connections between

unincorporated Washoe County and properties within the cities corporate limits and the spheres of influence.

This is understood. It is directed at Washoe County staff

SUN.5.6 Access to existing and future trails will be protected and improved whenever possible. During the process of development review, the Washoe County

Department of Community Development and Washoe County Department of Regional Parks and Open Space will request dedication of property and/or easements when appropriate trail alignments have been identified that link significant nodes within the Sun Valley planning area or connect existing or planned trails.

The natural area, included as part of the overall open space in the project will include perpetuation of the trails that exist as ties to the Red Hill Open Space area.

SUN.5.7 Development proposals and population trends will be evaluated on their impact to an established community standard of seven acres of Community Park per 1,000 residents. When warranted, the Washoe County Department of Regional Parks and Open Space will request the dedication of an appropriate amount of community park acreage as property develops within the planning area.

This is understood. It is directed at Washoe County staff

SUN.5.8 The Regional Transportation Commission is urged to designate and construct a "Bike Path" along the entire length of Sun Valley Boulevard (See Recreational Opportunities Plan map).

This is understood. It is directed at Regional Transportation Commission staff

Natural Resources

Air Resources

Goal Six: The Sun Valley planning area will maintain or exceed federal, state and local air quality standards for carbon monoxide, nitrogen dioxide, ambient particulates (pm10 & 2.5) and ozone. The vistas of the surrounding ridges and more distant mountain ranges will not be obstructed by man-made pollutants.

Policies

SUN.6.1 Commercial and/or industrial uses that qualify as a major source of air pollutants are prohibited within the Sun Valley planning area.

Not applicable. Project does not contain commercial or industrial uses. It is a residential subdivision.

SUN.6.2 Encourage pavement of dirt roads and parking lots in the Sun Valley planning area. The application of dust reduction material for unpaved parking lots in commercial and industrial areas shall be required.

It is Proposed that the roadways within the site will be paved to Washoe County standards.

Land Resources

Goal Seven: The built environment will minimize the destructive potential of any identified geological hazard.

Policies

SUN.7.1 Development proposals within the Sun Valley planning area will include detailed soils and geo-technical studies sufficient to:

- a. Ensure structural integrity of roads and buildings.
- b. Provide adequate setbacks from potentially active faults.
- c. Minimize erosion potential.

This development proposal is required to provide a grading plan with best management practices outlined, and a preliminary geotechnical report prepared by a Nevada registered civil engineer, including soils characteristics sufficient for use in tentative structural design (i.e. street sections, building pads, etc.)

SUN.7.2 Development proposals on areas with identified geological hazards will follow the recommendations of any geo-technical study conducted pursuant to Policy SUN.7.1.

Reference response to SUN.7.1 above

Land Resources - Mining

Goal Eight: Mining operations do not presently exist in the Sun Valley planning area and are not compatible with the compact development and visually prominent hillsides found in the valley.

Policies

SUN.8.1 Proposed mining operations, including aggregate pits, on private or public lands will not be approved within the Sun Valley Area Plan boundaries.

This is not applicable as there are no mining operations proposed with this application.

Water Resources - Flooding

Goal Nine: Personal and economic loses associated with flooding will be minimized. Restrict development within the 100-year Flood Hazard area in the Sun Valley planning area that would increase the 100-year floodwater levels.

Policies

SUN 9.1 The Washoe County Department of Public Works shall initiate an annual drainageway inspection program. Private property owners will be required to keep drainage facilities, located on their property, clear of debris and obstructions to maintain the existing carrying capacity of stormwater runoff and reduce flooding potential.

This is understood. Maintenance of the detention area will be determined through this process.

SUN.9.2 The Washoe County Department of Public Works will ensure that new developments in FEMA mapped flood areas that do not provide for flood control alternatives (e.g. channelization or detention) follow applicable regulations and ordinances for construction and maintenance.

The subject property is within unshaded Zone X.

SUN.9.3 The Washoe County Department of Public Works will require new developments to provide such on-site detention and drainage facilities as are needed to ensure that development of the site does not adversely impact downstream properties.

This is understood. A preliminary drainage report will be prepared and provided to support the onsite designed drainage facilities.

SUN 9.4 The Washoe County Department of Public Works shall require all new development to conform to any low impact development (LID) guidelines adopted by Washoe County.

This is understood. A detention basin to meet County requirements has been designed as part of the subdivision.

SUN.9.5 Washoe County, in coordination with the City of Sparks, will study the adequacy of flood detention facilities for the entire Sun Valley Hydrographic Basin and implement study recommendations to assure combined stormwater runoff from the basin will not adversely impact development downstream of Sun Valley.

This is understood. It is directed at Washoe County staff

Water Resources - Supply and Service

Goal Ten: Water resources will be supplied to land uses in the Sun Valley planning area according to the best principles/practices of sustainable resource development.

Policies

SUN.10.1 Whenever applicable, all development within the Sun Valley Suburban Character Management Area and the Downtown Character Management Area will connect to a community water service.

This project will be connected to community water through SVGID.

SUN.10.2 Surface water features using groundwater are not allowed in the Sun Valley planning area. Surface water features using reclaimed water may be created provided applicable health regulations are followed.

No such features are proposed.

SUN.10.3 To the extent that reclaimed water is available to meet a new proposed non- potable water demand; potable water shall not be supplied to meet the demand.

Reclaimed water is not available.

Water Resources - Quality

Goal Eleven: The quality of water in the Sun Valley Hydrographic Basin will be protected from degradation resulting from human activities.

Policies

SUN.11.1 The Washoe County Department of Water Resources will continue to maintain and implement a Wellhead Protection Plan for the Sun Valley Hydrographic Basin.

Not applicable. The project intends to connect to community water facility - SVGID

Water Resources - Wastewater

Goal Twelve: Wastewater treatment and disposal will be provided to land uses in the Sun Valley planning area according to the best principles/practices of sustainable resource development.

Policies

SUN.12.1 Whenever applicable, all development within the Sun Valley Suburban Character Management Area and the Downtown Character Management Area will connect to a community sewer service.

This project will be connected to community sewer through SVGID.

SUN.12.2 Conversion of existing septic systems in the Sun Valley planning area to community sewer shall be a priority.

Plan Maintenance

Goal Thirteen: Amendments to the Sun Valley Area Plan will be for the purpose of further implementing the Vision and Character Statement, or to respond to new or changing circumstances. Amendments must conform to the Sun Valley Vision and Character Statement.

Policies

- SUN.13.1 In order for the Washoe County Planning Commission to recommend the approval of any amendment to the Sun Valley Area Plan, the following findings must be made in addition to the required findings in Washoe County Development Code, Section 110.820.15:
 - a. The amendment will further implement and preserve the Vision and Character Statement.
 - b. The amendment conforms to all applicable policies of the Sun Valley Area Plan and the Washoe County Master Plan.
 - c. The amendment will not conflict with the public's health, safety or welfare.

Not Applicable. This application does not include an amendment to the SVAP.

- SUN.13.2 Amendments will be reviewed by the Department of Community Development against the following set of criteria and thresholds that are measures of the impact on, or progress toward, the Vision and Character Statement:
 - a. A feasibility study has been conducted and paid for by the applicant, relative to municipal water, sewer and storm water, that clearly identifies the improvements likely to be required to support the intensification, and those improvements have been determined to be in substantial compliance with all applicable existing facilities and resource plans for Sun Valley by the Sun Valley General Improvement District in conjunction with the Department of Water Resources. This may be waived by the Department of Public Works for projects that are determined to have minimal impacts. The Department of Water Resources will establish and maintain the standards and methodologies for these feasibility studies.
 - b. A traffic analysis has been conducted that clearly identifies the impact to the adopted level of service within the Sun Valley planning area and the improvements likely to be required to maintain/achieve the adopted level of service. This may be waived by the Department of Public Works for projects that are determined to have minimal impacts. The Department of Public Works may request any information it deems necessary to make this determination.

If the proposed intensification will result in a drop below the established policy level of service for transportation (as established by the Regional Transportation Commission and Washoe County) within the Sun Valley planning area, the necessary improvements required to maintain the established level of service are scheduled in either the Washoe County Capital Improvements Program or Regional Transportation Commission Capital Improvements Program within three years of approval of the intensification. For impacts to regional roads, this finding may be waived by the Washoe County Planning Commission upon written request from the

- Regional Transportation Commission.
- a. If roadways impacted by the proposed intensification are currently operating below adopted levels of service, the intensification will not require infrastructure improvements beyond those articulated in Washoe County and Regional Transportation Commission transportation plans AND the necessary improvements are scheduled in either the Washoe County Capital Improvements Program or Regional Transportation Commission Capital Improvements Program within three years of approval of the intensification.
- b. Washoe County will work to ensure that the long range plans of facilities providers for transportation, water resources, schools and parks reflect the goals and policies of the Sun Valley Area Plan.
- c. If the proposed intensification results in existing facilities exceeding design capacity and compromises the Washoe County School District's ability to implement the neighborhood school philosophy for elementary facilities, then there must be a current capital improvements plan or rezoning plan in place that would enable the District to absorb the additional enrollment. The Washoe County Planning Commission, upon request of the Washoe County School District Board of Trustees, may waive this finding.

Not Applicable. This application does not include an amendment to the SVAP.

SUN.13.3 For proposals to establish new commercial land uses outside of the Downtown Character Management Area, a market analysis has been conducted that clearly establishes a community serving trade area and provides convincing evidence of a need to increase the inventory of community-serving commercial land use opportunities.

Not applicable.

SUN.13.4 For any amendment that proposes to alter the Sun Valley Vision or Character Statement, the Department of Community Development has conducted a series of community visioning workshops with the Sun Valley Citizen Advisory Board (CAB), and the results of that process, including any CAB and staff recommendations, have been included and discussed in the staff analysis of the proposed amendment.

Not applicable.

SUN.13.5 For any amendment that proposes to expand the Suburban Character Management Area into the Rural Character Management Area and/or to revise the Character Statement, the Department of Community Development has conducted a series of community visioning workshops with the Sun Valley Citizen Advisory Board (CAB) and the results of that process, including any CAB and staff recommendations, have been included and discussed in the staff analysis of the proposed amendment; and a proposed land use change accompanies the boundary change proposal, and the land use proposal meets all of the applicable policies of the Sun Valley Area Plan.

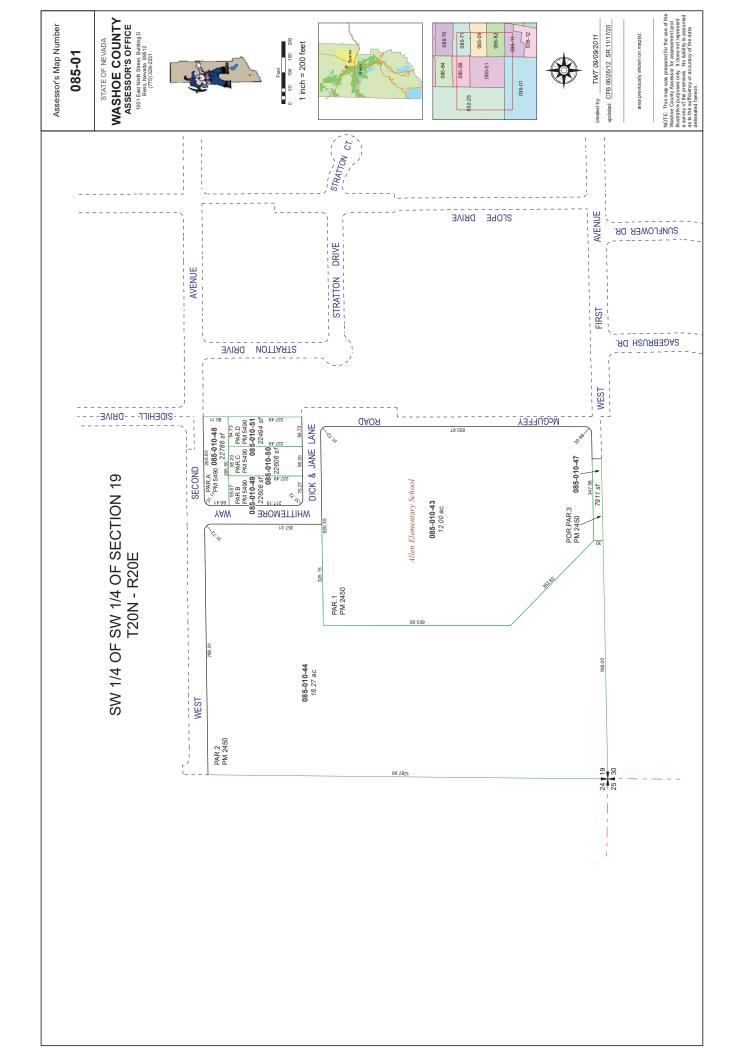

Not applicable.

SUN.13.6 The Department of Community Development will provide an annual status report to the Planning Commission regarding the implementation of this plan.

Not applicable.

Goal Thirteen is directed to Washoe County staff in regard to a proposed amendment to the Sun Valley Area Plan. This proposed project application is not requesting an amendment and this goal

is not applicable.

Sun Valley General Improvement District 5000 Sun Valley Boulevard Sun Valley, NV 89433-8229 Phone: (775) 673-2220

Fax: (775) 673-1835

January 20, 2022

Lumos & Associates Attn: Billy Anderson, P.E. 9222 Prototype Drive Reno, NV 89521

RE: Salmon Point Development

Dear Mr. Anderson,

The Sun Valley General Improvement District is the owner/operator of the water and wastewater facilities in the Sun Valley Hydro Basin. This Hydro Basin includes the 18 acre site of Salmon Point Development, 49 lot common open space subdivision that is proposed at the end of W. 2nd Ave. APN:085-010-44.

Water:

At the writing of this letter there is currently enough capacity to serve this proposed subdivision. This capacity is being utilized on a first come, first serve basis.

Wastewater:

At the writing of this letter there is currently enough capacity to serve this proposed subdivision. This capacity is being utilized on a first come, first serve basis.

Sincerely,

Sun Valley General Improvement District

Chris Melton Public Works Director

LEGIBILITY NOTICE

The Washoe County Recorder's Office has determined that the attached document may not be suitable for recording by the method used by the Recorder to preserve the Recorder's records. The customer was advised that copies reproduced from the recorded document would not be legible. However, the customer demanded that the document be recorded without delay as the parties rights may be adversely affected because of a delay in recording. Therefore, pursuant to NRS 247.120 (3), the County Recorder accepted the document conditionally, based on the undersigned's representation (1) that a suitable copy will be submitted at a later date (2) it is impossible or impracticable to submit a more suitable copy.

By my signing below, I acknowledge that I have been advised that once the document has been microfilmed it may not reproduce a legible copy.
