Subject: Variance Case Number: VA15-006
Applicant: John Lundy
Agenda Item Number: 9G
Project Summary: Request to reduce the front yard setback on two properties in order to construct structures to enclose accessory generators and switching gear at 4880 and 4910 Franktown Road
Recommendation: Denial
Prepared by: Eva M. Krause - AICP, Planner
Washoe County Community Services Department
Division of Planning and Development

E-Mail: ekrause@washoecounty.us

Description

Variance Case Number VA15-006 (Yarhi Estate) – Hearing, discussion, and possible action to grant a variance to reduce the front yard setback from 30 feet to 11 feet on the property at 4880 Franktown Road, and to reduce the front yard setback from 30 feet to 24 feet on the property at 4910 Franktown Road to enclose the generators and switching gear located in the front yard of each property. The properties are located on the east side of Franktown Road approximately 3500 feet south of the north intersection of Franktown Road and Old 395 highway.

- Applicant: John R. Lundy Architect
- Property Owner: Robert Yarhi
- Location: 4880 and 4910 Franktown Road
- Assessor’s Parcel Number(s): 055-060-37 and 055-060-38
- Parcel Size: 10 acres each
- Master Plan Category: Rural Residential (RR)
- Regulatory Zone: Medium Density Rural (MDR)
- Area Plan: South Valleys
- Citizen Advisory Board: South Truckee Meadows/Washoe Valley
- Development Code: Authorized in Article 804, Variances
- Commission District: 2 – Commissioner Lucey
- Section/Township/Range: Section 10, T16N, R19E, MDM, Washoe County, NV

Variance Definition

The purpose of a Variance is to provide a means of altering the requirements in specific instances where the strict application of those requirements would deprive a property of privileges enjoyed by other properties with the identical regulatory zone because of special features or constraints unique to the property involved; and to provide for a procedure whereby such alterations might be permitted by further restricting or conditioning the project so as to mitigate or eliminate possible adverse impacts.

NRS 278.300 (1) (c) limits the power of the Board of Adjustment to grant variances only under the following circumstances:

Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of the enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any regulation enacted under NRS 278.010 to 278.630, inclusive, would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, the Board of Adjustment has the power to authorize a variance from that strict application so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution.

The statute is jurisdictional in that if the circumstances are not as described above, the Board does not have the power to grant a variance from the strict application of a regulation. Along that line, under WCC Section 110.804.25, the Board must make four findings which are discussed below.

If the Board of Adjustment grants an approval of the Variance, that approval may be subject to Conditions of Approval. Conditions of Approval are requirements that need to be completed during different stages of the proposed project. Those stages are typically:

• Prior to permit issuance (i.e., a grading permit, a building permit, etc.).
• Prior to obtaining a final inspection and/or a certificate of occupancy on a structure.
• Prior to the issuance of a business license or other permits/licenses.
• Some Conditions of Approval are referred to as “Operational Conditions.” These conditions must be continually complied with for the life of the business or project.

Since a recommendation of denial has been made, there are no Conditions of Approval attached. Should the Board find that special circumstances exist and approve the requested variance, staff will provide Conditions of Approval at the public hearing.

YARHI ESTATE
Analysis

The applicant owns two ten acre lots on Franktown Road. Each lot is developed with a single family residence built in 2002. Each lot has split zoning, with Medium Density Rural (MDR) zoning abutting Franktown Road extending to the ditch behind residences (2.3 acres on 4880, and 1.7 acres on 4910), and General Rural (GR) zoning between the ditch and old Highway 395. There is a switchgear cabinet, a large generator and fuel tank (equipment) in the front yard on each of the properties. The applicant is requesting to enclose the equipment in buildings on both the subject parcels. Washoe County Development Code’s Building Placement standards require a 30 foot front yard setback for structures. The equipment installed in the front yard are not defined as structures in the County Development Code, therefore the Building Placement standards do not apply to the equipment, but would apply to the proposed buildings.

Both lots are relatively flat and unencumbered by physical feature that would prevent locating the equipment outside of the front yard setback. If the height of each structure is less than twelve feet to mid-peak, the structure could be located anywhere on the properties outside of the front yard and at least five feet from the side or rear yard.

In order to enclose the equipment in its present location, the building on 4880 Franktown Road would extend 19 feet into the front yard setback (reducing the setback to eleven feet). The building on 4910 would extend six feet into the setback (setback would be 24 feet). While the buildings would be more aesthetically pleasing and would help to dampen the sound of the generators, the applicant requires a variance because equipment was installed without consideration to the required front yard setback, or any forethought to appearance or impact of installing the equipment between the homes and the road.
Site Plan for 4880 Franktown Road

Property line

30' Setback
Variance Case Number: VA15-006

Site plan for 4910 Franktown Road

Property line

30' Setback

Equipment at 4940 Franktown Road is not included in this request
The equipment buildings are proposed to be 30 feet by 12 feet, with nine foot stone veneer walls, a 6/12 gable roof.

**South Truckee Meadows/Washoe Valley Citizen Advisory Board**

The proposed project was discussed at the regularly scheduled Citizen Advisory Board meeting on September 10, 2015. Trevor Lloyd (Senior Planner) was in attendance at the meeting and reported that the CAB recommended approval of the variance.

The CAB summary was not ready in time for inclusion in this report. Staff will report on CAB comments at the Board meeting.

**Reviewing Agencies**

The following agencies received a copy of the project application for review and evaluation:

- Regional Transportation Commission
- Truckee Meadows Fire Protection District
- Nevada Department of Transportation
- Washoe County Community Services Department
  - Planning and Development
Engineering and Capital Projects
- Building and Safety

- Washoe County Health District
  - Vector-Borne Diseases Division
  - Environmental Health Division
  - Air Quality

Two out of the nine above listed agencies/departments provided comments and/or recommended conditions of approval in response to their evaluation of the project application. A summary of each agency’s comments and/or recommended conditions of approval and their contact information is provided.

- Planning and Development addressed the location of the existing switchgear and generators.
  
  Contact: Eva Krause, 775.328.3628, ekrause@washoecounty.us

- Health District responded stating that both properties have Onsite Sewage Disposal Systems (OSDS) and Domestic wells. All plans will have to be approved by the Health District.
  
  Contact: Chris Anderson, 328-2632 canderson@washoecounty.us

The remaining agencies responded that they did not have comments or concerns.

**Staff Comment on Required Findings**

Section 110.804.25 of Article 804, Variances, within the Washoe County Development Code, requires that all of the following findings be made to the satisfaction of the Washoe County Board of Adjustment before granting approval of the abandonment request. Staff has completed an analysis of the application and has determined that the proposal is in compliance with the required findings as follows.

1. **Special Circumstances.** Because of the special circumstances applicable to the property, including exceptional narrowness, shallowness or shape of the specific piece of property; exceptional topographic conditions; extraordinary and exceptional situation or condition of the property and/or location of surroundings; the strict application of the regulation results in exceptional and undue hardships upon the owner of the property.

   **Staff Comment:** While the proposed structures would screen the equipment and reduce the noise of the generator when in use, the special circumstance was self-induced when the equipment was installed in the front yard. Both parcels are 10 acres, fairly level and there are large areas of undeveloped land where the equipment could have been located. Staff cannot make a finding of a hardship or special circumstance of the land.

2. **No Detriment.** The relief will not create a substantial detriment to the public good, substantially impair affected natural resources or impair the intent and purpose of the Development Code or applicable policies under which the variance is granted.
Staff Comment: Approval of the variance would impair the intent and purpose of the Development Code.

3. No Special Privileges. The granting of the variance will not constitute a grant of special privileges inconsistent with the limitations upon other properties in the vicinity and the identical regulatory zone in which the property is situated.

Staff Comment: Granting this variance would bestow a special privilege that is not shared by other property owners in the vicinity and the identical regulatory zone.

4. Use Authorized. The variance will not authorize a use or activity which is not otherwise expressly authorized by the regulation governing the parcel of property.

Staff Comment: A generator and electrical equipment is accessory to the existing residence and is permitted.

5. Effect on a Military Installation. The variance will not have a detrimental effect on the location, purpose and mission of the military installation.

Staff Comment: No military instantiations are located within 3,000 feet of the proposed project; therefore this finding does not have to be made.

Recommendation

Those agencies which reviewed the application provided conditions for the project, if approved. Planning staff was not able to make all the finding required for approval of a variance, therefore, after a thorough analysis and review, Variance Case Number VA15-006 is being recommended for denial. Should the Board agree with staff’s recommendation the following motion is offered for consideration.

Motion

I move that, after giving reasoned consideration to the information contained in the staff report and information received during the public hearing, the Washoe County Board of Adjustment deny Variance Case Number VA15-006 for Robert Yarhi, having not made findings 1, 2 or 3 of the four required findings in accordance with Washoe County Development Code Section 110.804.25

1. Special Circumstances. Because of the special circumstances applicable to the property, including exceptional narrowness, shallowness or shape of the specific piece of property; exceptional topographic conditions; extraordinary and exceptional situation or condition of the property and/or location of surroundings; the strict application of the regulation results in exceptional and undue hardships upon the owner of the property;

2. No Detriment. The relief will not create a substantial detriment to the public good, substantially impair affected natural resources or impair the intent and purpose of the Development Code or applicable policies under which the variance is granted;

3. No Special Privileges. The granting of the variance will not constitute a grant of special privileges inconsistent with the limitations upon other
properties in the vicinity and the identical regulatory zone in which the property is situated;

4. **Use Authorized.** The variance will not authorize a use or activity which is not otherwise expressly authorized by the regulation governing the parcel of property.

**Appeal Process**

Board of Adjustment action will be effective 10 calendar days after the written decision is filed with the Secretary to the Board of Adjustment and mailed to the original applicant, unless the action is appealed to the Washoe County Board of County Commissioners, in which case the outcome of the appeal shall be determined by the Washoe County Board of County Commissioners. Any appeal must be filed in writing with the Planning and Development Division within 10 calendar days after the written decision is filed with the Secretary to the Board of Adjustment and mailed to the original applicant.

RE: Yarhi Estate; APN’s 055-060-37 & -38
Variance; VA15-006

Dear Ms. Krause:

The Washoe County Health District, Environmental Health Services Division (Division) Engineering has reviewed the above referenced project. Both properties are served by domestic wells and onsite sewage disposal systems (OSDS). Approval by this Division is subject to the following conditions:

1. The building permit application shall be routed to this Division and shall show the specific locations of all domestic wells and OSDS for both properties. The OSDS locations shall include the location of repair areas.
2. The improvements shall meet all setback requirements per the Washoe County Health District Regulations Governing Sewage, Wastewater and Sanitation and Washoe County Health District Regulations Governing Well Construction.

If you have any questions regarding the foregoing, please call me at 328-2632.

Sincerely,

Chris Anderson, P.E.

February 2014
Variance Application
Supplemental Information

(All required information may be separately attached)

Chapter 110 of the Washoe County Code is commonly known as the Development Code. Specific references to variances may be found in Article 804, Variances.

1. What provisions of the Development Code (e.g. front yard setback, height, etc.) must be waived or varied to permit your request?

   FRONT YARD SETBACK : MINOR INTRUSION

   You must answer the following questions in detail. Failure to provide complete and accurate information will result in denial of the application.

2. What are the topographic conditions, extraordinary or exceptional circumstances, shape of the property or location of surroundings that are unique to your property and, therefore, prevent you from complying with the Development Code requirements?

   THE SWITCHGEAR FOR THESE PROPERTIES WERE INSTALLED @ THE FRONT YARD SETBACKS. THE GENERATORS WERE PLACED OUT OF THE SETBACK BUT-ADJACENT TO THE SWITCHGEAR WHICH THEY MUST CONNECT TO. WE WANT TO ENCLOSE THE SWITCHGEAR & GENERATORS TO LOOK & SOUND SUPPRESSION - THEY ARE NOISY & UNESTENDILY NEXT TO THE ROAD,
3. What steps will be taken to prevent substantial negative impacts (e.g. blocking views, reducing privacy, decreasing pedestrian or traffic safety, etc.) to other properties or uses in the area?

The switchgear is placed below the street so the enclosures will be mostly below road level. The buildings will be in local stone & set to fit in with the existing houses.

4. How will this variance enhance the scenic or environmental character of the neighborhood (e.g. eliminate encroachment onto slopes or wetlands, provide enclosed parking, eliminate clutter in view of neighbors, etc.)?

Eliminating the view of the switchgear & generators with a stone house (used on other buildings on lot) with a slate roof to look like a block house will be more attractive & eliminate noise.
5. What enjoyment or use of your property would you be denied that is common to other properties in your neighborhood?

Now: they can set their generators outside if they want to & we can listen to them when they start up in the middle of the night on the next power outage in Washoe Valley.

6. Are there any restrictive covenants, recorded conditions or deed restrictions (CC&Rs) that apply to the area subject to the variance request?

☐ Yes ☒ No  If yes, please attach a copy.

7. What is your type of water service provided?

☒ Well ☐ Community Water System

8. What is your type of sanitary waste disposal?

☒ Individual Septic System ☐ Community Sewer System
