Parcel Map

The purpose of a parcel map is to allow for the creation of subdivisions, merger and re-subdivision of existing lots, and common-interest communities consisting of four or fewer parcels pursuant to Washoe County Code (WCC) Chapter 110, Article 606, Parcel Maps. A tentative parcel map must be submitted to the Planning and Building Division for the purpose of review prior to or concurrent with the final parcel map. Every tentative parcel map must be prepared by a professional land surveyor. The parcel map process exists to establish reasonable standards of design and procedures for subdividing in order to further the orderly layout and use of land and insure proper legal descriptions and monumenting of subdivided land. Additionally, the process helps to safeguard the public health, safety and general welfare by establishing minimum standards of design and development for any land division platted in the unincorporated area of Washoe County. If the Washoe County Parcel Map Review Committee grants an approval of the tentative parcel map, that approval is subject to Conditions of Approval. Conditions of Approval are requirements that may need to be completed during different stages of the proposed project. Those stages are typically:

- Prior to recordation of a final map.
- Prior to obtaining a final inspection and/or a certificate of occupancy on a structure.
- Prior to the issuance of a business license or other permits/licenses.
- Some Conditions of Approval are referred to as "Operational Conditions." These conditions must be continually complied with for the life of the project.

Within 22 months from the date of approval of the tentative parcel map, the applicant must file a final parcel map along with any required supporting materials with the Planning and Building Division and the County Engineer showing that all conditions imposed by the Washoe County Parcel Map Review Committee have been met. Approval or conditional approval of a tentative parcel map imposes no obligation on the part of the Director of the Planning and Building Division or the Washoe County Board of County Commissioners to approve the final parcel map or to accept any public dedication shown on the tentative or final parcel map. Failure to submit a complete final parcel map and pay the required fees within the two year time period shall cease any further action on the map and shall render the tentative parcel map as expired.

The Conditions of Approval for Tentative Parcel Map Case Number WTPM17-0010 is attached to this staff report and will be included with the Action Order if approved by the Parcel Map Review Committee.

The subject property has a regulatory zone of Medium Density Suburban (MDS) which provides for a residential density of three dwelling units per acre and requires a minimum lot size of 12,000 square feet. The applicant is seeking approval of a tentative parcel map in accordance with WCC Chapter 110, Article 606 in order to divide the existing parcel into two lots or the purpose of development of one additional dwelling unit. Both of the proposed lots exceed the minimum lot size for the MDS zone.
Site Plan
Tentative Parcel Map Evaluation

Master Plan Category: Suburban Residential (SR)
Regulatory Zone: Medium Density Suburban (MDS)
Maximum Lot Potential: 2
Number of Lots on Parcel Map: 2
Minimum Lot Size Required: 14,375 square feet (pursuant to WCC Section 110.212.05)
Minimum Lot Size on Parcel Map: ±15,881 square feet
Minimum Lot Width Required: 80 feet
Minimum Lot Width on Parcel Map: ±124 feet

The tentative parcel map meets all minimum requirements for the Medium Density Suburban (MDS) regulatory zone.

Development Suitability Constraints: The Southeast Truckee Meadows Area Plan Development Suitability Map, a part of the Southeast Truckee Meadows Area Plan, identifies the subject parcel as most suitable for development.

The subject parcel is inside the Truckee Meadows Service Area (TMSA).

Southeast Truckee Meadows Area Plan Modifiers

WCC Section 110.212.05 requires that parcels of land within the MDS zone be a minimum of 14,375 square feet.

Development Information The subject parcel is currently developed with one single-family dwelling. The existing dwelling is not in conformance with the required front yard setbacks, but that nonconformance will not be exacerbated by approval of the proposed map. The required setbacks for the Medium Density Suburban zone are 20 feet for front and rear yard setbacks and 8 feet for the side yard setbacks. Any new development will be required to comply with the above-mentioned setbacks.
