Parcel Map

The purpose of a parcel map is to allow for the creation of subdivisions, merger and re-subdivision of existing lots, and common-interest communities consisting of four or fewer parcels pursuant to Washoe County Code Chapter 110, Article 606, Parcel Maps. A tentative parcel map must be submitted to the Planning and Building Division for the purpose of review prior to or concurrent with the final parcel map. Every tentative parcel map must be prepared by a professional land surveyor. The parcel map process exists to establish reasonable standards of design and procedures for subdividing in order to further the orderly layout and use of land and insure proper legal descriptions and monumenting of subdivided land. Additionally, the process helps to safeguard the public health, safety and general welfare by establishing minimum standards of design and development for any land division platted in the unincorporated area of Washoe County. If the Washoe County Parcel Map Review Committee grants an approval of the tentative parcel map, that approval is subject to Conditions of Approval. Conditions of Approval are requirements that may need to be completed during different stages of the proposed project. Those stages are typically:

- Prior to recordation of a final map.
- Prior to obtaining a final inspection and/or a certificate of occupancy on a structure.
- Prior to the issuance of a business license or other permits/licenses.
- Some Conditions of Approval are referred to as “Operational Conditions.” These conditions must be continually complied with for the life of the project.

Within 22 months from the date of approval of the tentative parcel map, the applicant must file a final parcel map along with any required supporting materials with the Planning and Building Division and the County Engineer showing that all conditions imposed by the Washoe County Parcel Map Review Committee have been met. Approval or conditional approval of a tentative parcel map imposes no obligation on the part of the Director of the Planning and Building Division or the Washoe County Board of County Commissioners to approve the final parcel map or to accept any public dedication shown on the tentative or final parcel map. Failure to submit a complete final parcel map and pay the required fees within the two year time period shall cease any further action on the map and shall render the tentative parcel map as expired.

The Conditions of Approval for Tentative Parcel Map Case Number WTPM18-0004 is attached to this staff report and will be included with the Action Order if approved by the Parcel Map Review Committee.

The subject property has regulatory zones of General Rural and Medium Density Rural. The proposed parcel map conforms to lot size and width requirements.
Vicinity Map
WTPM18-0006 (Nichols)
Tentative Parcel Map Evaluation

Regulatory Zone: General Rural (GR) & Medium Density Rural (MDR)

Maximum Lot Potential: 3 lots
Number of Lots on Parcel Map: 3 lots
Minimum Lot Size Required: 4 acres
Minimum Lot Size on Parcel Map: 5 acres
Minimum Lot Width Required: 200 feet
Minimum Lot Width on Parcel Map: 323.04 feet

The tentative parcel map meets all minimum requirements for the Medium Density Rural (MDR) regulatory zone.

Development Suitability Constraints: The Southwest Area Plan Development Suitability Map, a part of the Southwest Area Plan, identifies the subject parcel as having slopes greater than 15%.

Hydrographic Basin: The subject parcel is within the Truckee Meadows Hydrographic Basin.

The subject parcel is inside the Truckee Meadows Service Area (TMSA).

The proposed subdivision is not a second or subsequent division of a parcel map approved within the last five years.

Southwest Area Plan Modifiers

There are no modifiers within Article 214 (Area Plan Regulations – Southwest Area) of the Washoe County Code Chapter 110 (Development Code) that effect the evaluation of this proposed parcel map.
**Development Information**

The subject site is undeveloped at this time, with paved Schellbourne Street dead ending on the parcel. The eastside of the parcel boarders the critical stream zone buffer area of Dry Creek, which is identified as a significant hydrologic resource. The ±20.20 acre parcel’s regulatory zoning is Medium Density Rural (MDR) on ±15.11 acres and General Rural (GR) on ±5.59 acres. The applicant is proposing one ±10.2 acre parcel, which will have ±6.3 acres zoned MDR and ±3.9 acres will be zoned GR. The two other 5 acre parcels will be MDR on 4 acres and GR on 1 acre. The three parcels meet the regulatory zoning MDR standards; the setbacks are 30 feet in the front and rear and 15 feet on the side. There is sufficient area within each proposed parcel to meet these standards.

b. Washoe County code requires that the applicant for a parcel map with parcels served by an individual domestic well, to bring forth an approved and recorded “Affidavit of Relinquishment for Domestic Wells” by the Nevada State Engineer’s office. FROM: Vahid Behmaram, Water Management Planner Coordinator, CSD

SUBJECT: Tentative Parcel Map Case Number WTPM18-0004 (Nichols) APN: 041-140-22

**Project description:**

The applicant is proposing a parcel map dividing one parcel ±20.20 acres into three parcels. The three parcels will be ±10.20 acres, ±5.0 acres, and ±5.0 acres and located half a mile south of the intersection of Shellbourne Street and Brunswick Mill Road. Water will be provided by individual domestic wells, and sewage disposal will be by individual septic systems.

The Community Services Department (CSD) recommends approval of this project with the following Water Rights conditions:

1) The subject parcel is not near any municipal, quasi-municipal or private water delivery infrastructure; therefore, resulting parcels will rely on Individual Domestic wells as their source of domestic water supply.

2) Washoe County code requires that the applicant for a parcel map with parcels served by an individual domestic well, to bring forth an approved and recorded “Affidavit of Relinquishment for Domestic Wells” by the Nevada State Engineer’s office. The applicant shall complete the relinquishment process with the State Engineer’s office and record the approved form with the County Recorder’s office and submit a recorded copy to Washoe County as a pre-requisite to approval of their parcel map.

3) Washoe County retains the authority to impose its own review and reject water rights which do not comply with Washoe County code and area plans. Therefore, a preview of water rights intended to support the project (prior to relinquishment process) will be helpful for both the applicant and Washoe County staff.

4) The ground water rights subject to relinquishment MAY NOT be supplemental ground water which supplement primary surface water rights.

5) The amount of water rights necessary is 2.00 acre-feet of ground water rights per newly created parcel. The original parcel is deemed exempt from the relinquishment process. In the way of an example, if one parcel is subdivided into a total of 4, there are 3 newly created parcels and one existing or remains thereof. This particular parcel map will create 2 newly created parcels which will require the relinquishment of 4.00 acre-feet of ground water rights.
6) The water rights must be in good standing with the State of Nevada, with current title. The water rights must be from the same hydrographic basin as the lands subject to the parcel map and comply with the appropriate area plan.
