Eric Young opened the public hearing and reviewed his staff report dated December 18, 2018. Mr. Young noted he had a concern about a large Sierra Pacific easement going through the property but spoke with Mark Sullivan with NVEnergy, who indicated they are not concerned with it.

Chris Baker, Manhard Consulting, said there is drainage at the back of the lot resulting in the odd shaped remainder lot which will be used for access and drainage. He also commented that although Washoe County GIS identified it as in the Sun Valley GID, it is actually not in the GID.

Wes Rubio asked, if they are not in the Sun Valley GID area, who is going to provide water and sewer. Mr. Baker said they would connect to TMWA water and said he believes they would install septic systems. Tim Simpson said there are sewer lines that traverse the property and along the road, so he believes it would be a requirement for the tentative parcels to connect to municipal sewer. Mr. Rubio said the tentative map could not move forward unless it is going to be connected to sewer. There is no other option. The parcels are too small. Mr. Baker agreed they would connect to sewer.

With no response to the call for public comment, the public comment period was closed.

Larry Chesney moved that, after giving reasoned consideration to the information contained within the staff report and the information received during the public meeting, that the Washoe County
Parcel Map Review Committee approve Parcel Map Case Number WTPM18-0014 for Cherise Benetti-Smith, subject to the conditions of approval included as Exhibit A with the staff report, and make the determination that the following criteria is or will be adequately provided for pursuant to Washoe County Code, Section 110.606.30. Wes Rubio seconded the motion which carried unanimously.

The motion carried and considered the following criteria:

1) General improvement considerations for all parcel maps including, but not limited to:
   a) Environmental and health laws and regulations concerning water and air pollution, the
disposal of solid waste, facilities to supply water, community or public sewage disposal
and, where applicable, individual systems for sewage disposal;
   b) The availability of water which meets applicable health standards and is sufficient for the
reasonably foreseeable needs of the subdivision;
   c) The availability and accessibility of utilities;
   d) The availability and accessibility of public services such as schools, police and fire
protection, transportation, recreation and parks;
   e) Conformity with the zoning ordinances and master plan;
   f) General conformity with the governing body's master plan of streets and highways;
   g) The effect of the proposed subdivision on existing public streets and the need for new
streets or highways to serve the subdivision;
   h) Physical characteristics of the land such as floodplain, slope and soil;
   i) The recommendations and comments of those entities reviewing the tentative parcel
map pursuant to NRS 278.330 and 278.348, inclusive;
   j) The availability and accessibility of fire protection including, but not limited to, the
availability and accessibility of fire protection for the prevention and containment of
fires including fires in wild lands;
   k) Community antenna television (CATV) conduit and pull wire; and
   l) Recreation and trail easements.
