(Motions with Findings on Page 5)
Development Code Amendments

The Washoe County Development Code is Chapter 110 of the Washoe County Code (WCC). The Development Code broadly regulates allowable and permitted land uses, subdivision of land, planning permit requirements and procedures, signage, infrastructure availability, land use development standards, and other related matters. Because the Development Code covers so many varying aspects of land use and development standards, it is expected that from time to time it may be necessary to change or amend one or more portions of the Development Code to keep it up to date with the most current and desirable trends in planning and development.

The development code amendment process provides a method of review and analysis for such proposed changes. Development code amendments may be initiated by the Washoe County Board of County Commissioners (Board), the Washoe County Planning Commission (PC), or an owner of real property. Development code amendments are initiated by resolution of the Board or the PC. Real property owners may submit an application to initiate a Development Code amendment.

After initiation, the PC considers the proposed amendment in a public hearing. The PC may recommend approval, approval with modifications or deny the proposed amendment. The PC records its recommendation or denial by resolution.

The Board hears all amendments recommended for approval, and amendments denied by the PC upon appeal. The Board will hold a first reading and introduction of the ordinance (proposed amendment), followed by a second reading and possible ordinance adoption in a public hearing at a second meeting at least two weeks after the first reading.

Public Notice

Pursuant to WCC Section 110.818.20, notice of this public hearing was published in the newspaper at least 10 days prior to this meeting, and the Chairs and membership of all Citizen Advisory Boards were likewise notified of the public hearing.
Background

Development Code Article 324, Communication Facilities, provides the standards and requirements for the placement of communication facilities including wireless communication facilities. Washoe County Technology Services plans placement of multiple communication facilities throughout Washoe County in order to improve the County’s emergency communications system. The purpose of this code amendment is to allow for the expedited approval for the placement of emergency communication facilities which are owned and operated by governmental agencies by exempting these facilities from requiring a special use permit under certain situation.

Amendment Evaluation

The proposed code amendment will allow for the placement/erection of monopoles and lattice towers for the purpose of transmitting emergency communications without requiring the approval of a special use permit. This exemption will only apply to new monopoles and lattice towers that are owned and operated by governmental agencies and such monopole or lattice tower must be located either at one of the following established communications sites (McClellan Peak, Chimney Peak, Fox Mountain, Marble Bluff, Mt. Rose Knob, Pah Rah Peak, Peavine Peak(s), Poito Mountain, Red Peak, Slide Mountain and Virginia Peak) or located over 2,000 feet from either a paved road or from an existing residence. Also, the new monopole must not be located on or immediately adjacent to a protected ridgeline as identified on an area plan’s development suitability map.
