RENO, NV 89512

Attn: Melissa Lawney
(775) 771-4241

Dear Melissa:

Per your recent request, please find following our quotation for a 130' Sabre Model S4TL self-supporting tower.

If you have any questions or require further information, please feel free to contact me at (800) 369-6690, ext. 11610.

Sincerely,
SABRE INDUSTRIES

Heath Peterson
Government/Utility Sales Manager

## Prepared for: WASHOE COUNTY 1001 E. 9TH ST. <br> RENO, NV 89512 <br> Attn: Melissa Lawney

## PROPOSAL

## SABRE MODEL S4TL SELF-SUPPORTING TOWER

Quantity of one (1) 130' Sabre Model S4TL self-supporting tower.
The tower will be square in design with a base width of $15^{\prime}-0^{\prime \prime}$ tapering to $5^{\prime}-0^{\prime \prime}$ at the top. The tower will utilize tubular steel for tower legs and angular steel for bracing.

See the tower profile included in this proposal for the design parameters.
The tower will be designed to support the following equipment:

|  | $\begin{gathered} \hline \text { ANTENNA MODEL } \\ \text { NUMBER } \\ \text { (QTY) } \end{gathered}$ | $\begin{aligned} & \text { RAD } \\ & \text { YES } \end{aligned}$ | ME NO | $\begin{aligned} & \text { ELEVATION } \\ & \text { C.O.R. } \end{aligned}$ | $\begin{array}{\|c\|} \hline \text { TX. Note: This structure has been manufactured with American made steel. (Complete Structure)
Note: This structure conforms to the design requirements of the 2018 Northern Nevada Code.

Prepared for: WASHOE COUNTY 1001 E. 9TH ST.<br>RENO, NV 89512<br>Attn: Melissa Lawney

## PROPOSAL

| Proposal No.: | 21-5308-HGP |
| :--- | :--- |
| Date: | $04 / 01 / 21 \quad$ Page $2 \quad$ of 5 |
| Reference: | 130' S4TL/WC Marble, NV BUDGETARY |
| Freight: | Origin |

Materials to be provided include:
Complete tower steel and hardware (Buy American Complete Structure)
Anchor bolts and templates
Leg-to-Leg templates
Construction step bolts (see notes)
Outside climbing ladder (16") with required standoffs
One (1) waveguide support ladder * (to support sixteen (16) initial lines $-16^{\text {th }}$ line on stackable hangers)

* Stackable hangers will be provided by others

One (1) flush mount with 2-3/8" O.D. pipe @ the 130' elevation
One (1) 6 ' sidearm with two (2) tiebacks with one (1) 5 ' mounting pipe @ the 130 ' elevation
One (1) 3' sidearm with two (2) tiebacks with one (1) 5' mounting pipe @ the 130' elevation
One (1) 3' sidearm with two (2) tiebacks with one (1) 5' mounting pipe @ the 130' elevation
One (1) 3 ' sidearm with two (2) tiebacks with one (1) 5 ' mounting pipe @ the 130' elevation
One (1) flush mount with 2-3/8" O.D. pipe @ the 127' elevation
Two (2) 4-1/2" O.D. leg dish mounts each @ the 124 ' elevation
One (1) 3' sidearm with two (2) tiebacks with one (1) 5' mounting pipe @ the 112' elevation
One (1) 6 ' sidearm with two (2) tiebacks with one (1) 5 ' mounting pipe @ the $110^{\prime}$ elevation
One (1) 4-1/2" O.D. leg dish mount @ the 67 ' elevation
One (1) 4-1/2" O.D. leg dish mount with one (1) stiffarm mounting assembly @ the 60 ' elevation
One (1) 4-1/2" O.D. leg dish mount with two (2) stiffarm mounting assemblies @ the 29.5 ' elevation
One (1) 4-1/2" O.D. leg dish mount @ the 27 ' elevation
One (1) 4-1/2" O.D. leg dish mount with two (2) stiffarm mounting assemblies @ the 20 ' elevation
Safety cable kit without harness (150')
One (1) Waveguide Bridge 2-Leg 2' x 10' (15' Direct Burial) with three (3) 2 level trapeze kits
One (1) $3^{\prime} \times 5 / 8^{\prime \prime}$ lightning rod copper clad
One (1) $2-7 / 8^{\prime \prime} \times 15^{\prime}$ lightning rod extension
P.E. certified tower profile and foundation drawings

Final erection drawings

GEOTECHNICAL REPORT . $\mathbf{\$ 1 2 , 1 9 6 . 0 0}$

Provide Geotechnical report based on one (1) boring, 50' deep.

ITEM III
FOUNDATION INSTALLATION
. $\mathbf{\$ 7 7 , 9 7 9 . 0 0}$
Install foundations based on presumptive clay soil, per TIA-222-H.

Prepared for: WASHOE COUNTY 1001 E. 9TH ST.<br>RENO, NV 89512<br>Attn: Melissa Lawney

## PROPOSAL

| Proposal No.: | 21-5308-HGP |
| :--- | :--- |
| Date: | 04/01/21 $\quad$ Page 3 of 5 |
| Reference: | 130' S4TL/WC Marble, NV BUDGETARY |
| Freight: | Origin |

ITEM IV
TOWER ERECTION
. $\mathbf{\$ 4 5 , 6 7 7 . 0 0}$

The following is included in the erection price:
Offload tower materials from truck and inventory
Erect tower steel complete
Install Outside climbing ladder (16")
Install One (1) waveguide support ladder (to support sixteen (16) initial lines $-16^{\text {th }}$ line on stackable hangers)
Install One (1) flush mount with 2-3/8" O.D. pipe @ the 130' elevation
Install One (1) 6' sidearm with two (2) tiebacks with one (1) 5' mounting pipe @ the 130' elevation
Install One (1) $3^{\prime}$ sidearm with two (2) tiebacks with one (1) 5 ' mounting pipe @ the $130^{\prime}$ elevation
Install One (1) $3^{\prime}$ sidearm with two (2) tiebacks with one (1) 5 ' mounting pipe @ the $130^{\prime}$ elevation
Install One (1) 3 ' sidearm with two (2) tiebacks with one (1) 5' mounting pipe @ the 130' elevation
Install One (1) flush mount with 2-3/8" O.D. pipe @ the 127' elevation
Install Two (2) 4-1/2" O.D. leg dish mounts each @ the 124' elevation
Install One (1) 3 ' sidearm with two (2) tiebacks with one (1) 5 ' mounting pipe @ the $112^{\prime}$ elevation
Install One (1) 6 ' sidearm with two (2) tiebacks with one (1) 5 ' mounting pipe @ the 110 ' elevation
Install One (1) 4-1/2" O.D. leg dish mount @ the 67' elevation
Install One (1) 4-1/2" O.D. leg dish mount with one (1) stiffarm mounting assembly @ the 60' elevation
Install One (1) 4-1/2" O.D. leg dish mount with two (2) stiffarm mounting assemblies @ the 29.5' elevation
Install One (1) 4-1/2" O.D. leg dish mount @ the 27' elevation
Install One (1) 4-1/2" O.D. leg dish mount with two (2) stiffarm mounting assemblies @ the 20' elevation Install Safety cable kit without harness (150')
Install One (1) Waveguide Bridge 2-Leg 2' x 10' (15' Direct Burial) with three (3) 2 level trapeze kits
Install One (1) $3^{\prime} \times 5 / 8^{\prime \prime}$ lightning rod copper clad
Install One (1) $2-7 / 8^{\prime \prime} \times 15$ ' lightning rod extension
Install Ladder Standoff Bracket, Initial

Install ground ring around the tower using $5 / 8^{\prime \prime}$ ground rods and $\# 2$ solid tinned copper wire. Tie into existing grounding system. same destination at the same time.

## PROPOSAL

NOTES: Terms will be reviewed upon receipt of order.
Wind induced vibrations, such as vortex shedding and harmonic oscillation/resonance, of structures of all types due to unpredictable interaction with wind and surrounding structures, exposure and terrain rarely occur. The owner's maintenance program should include observations for vibration and any resulting loosening of connecting hardware or damage to the structure. The Sabre warranty specifically excludes failure due to fatigue or similar phenomena as a result of the aforementioned behavior.

The permit package includes a profile drawing of the structure with member sizes; anchor bolt details; descriptive notes; structural calculations; a table of supported antennas, mounts and feedlines; and a foundation sketch and calculations (if applicable).

This quotation is based on ANSI/TIA-222-H and Customer provided specifications. Any information not provided by ANSI/TIA-222-H or the Customer has not been considered.

Foundation and anchor bolt designs are based strictly on ANSI/TIA-222-H. Any additional requirements may result in increased foundation size and price.

## Dimensional information is preliminary only; it may change based on final engineering.

All Sabre mounts are quoted with support pipes of appropriate length for most applications if not otherwise specified. If different support pipe lengths are required at the time of the order, additional costs may be incurred.

Cable type safety climbing device provided does not include harness.
Freight charges quoted are for provided materials only. Additional freight charges may be incurred with the order of additional items.

Site must be easily accessible for trucks delivering tower steel and concrete, cranes, drill rigs, and all other equipment required to perform the job.

In the event that the existing soil conditions are found to be other than as depicted in the Soils Report and Sabre's soil parameters, Sabre may ask for an equitable adjustment to the quoted price.

Customer to secure all permits.
This quote is based on non-union, non-prevailing wages, and non-winter working conditions.

All deviations, alterations, field changes, engineering changes, or architectural changes to the implied scope of work will be bill accordingly on a time a materials basis.

Any downtime or remobilization due to circumstances beyond our control will be billed accordingly.
All antennas, transmission lines, jumpers, ground kits, hangers, and hardware are to be provided and installed by others.

## Prepared for: WASHOE COUNTY 1001 E. 9TH ST. <br> RENO, NV 89512 <br> Attn: Melissa Lawney

## PROPOSAL

| Proposal No.: | 21-5308-HGP |  |
| :--- | :--- | :--- |
| Date: | $04 / 01 / 21 \quad$ Page $5 \quad$ of 5 |  |
| Reference: | 130' S4TL/WC Marble, NV BUDGETARY |  |
| Freight: | Origin |  |

All tower materials will be hot dip galvanized as outlined in ASTM A-123.
Construction step bolts have been quoted to the $60^{\prime}$ elevation on all three legs for safety and ease of construction. Step bolts should not be used for climbing without the use of a safety climbing device or fall protection equipment.

This proposal does not include any sales, use, excise, contractors or any other taxes not specifically detailed in this proposal.

If a Customer requests to pick up a tower, a $\$ 300.00$ per truck charge may apply for dunnage and loading.
Storage charges of $\$ 350.00$ per month may apply starting sixty (60) days after original scheduled ship date.
Due to material and freight price fluctuations, Sabre reserves the right to review all material and freight pricing prior to accepting any order. Any structure order placed on hold is subject to a price review at the time of its release from hold status.

Title, ownership, risk of loss, risk of material obsolescence and risk of material market value decline shall pass to the Customer upon invoicing or shipment to Customer, whichever occurs earlier in time.

Delivery of tower materials will be approximately 18 to 20 weeks after receipt of required information and contingent upon backlog at the time of order.

This proposal is based on the terms and conditions proposed above including the attached standard terms and conditions and is subject to our review and final acceptance of your order. No other terms are valid unless signed by an authorized officer of Sabre Industries.
